

Proactive Safety & Wellness in One Mobile Solution

The Most Advanced Mobile Solution For Falls And Well-Being

Numeram Libris is the first all-in-one mobile health, wellness and personal safety solution. Numeram Libris with Numeram EverThere is a hardware and cloud-based platform that integrates health measurement information, personal safety and emergency response with proactive, socially-engaging health services. Numeram provides seniors and their family members with tools to track and share important health and activity information, allowing people to take charge of their health, to manage chronic conditions, and to keep families and caregivers engaged.

- **The most advanced fall detection** – detects falls with utmost accuracy. Nearly 90% of Numeram Libris users utilize fall detection.
- **Captures and delivers health data** – Numeram Libris with Smart Cradle connects wirelessly with a variety of personal medical devices: oximeter, blood pressure, glucose sensors, etc. Data is uploaded via Libris either to the EverThere cloud or through Numeram's platform directly to other integrated portals or databases.
- **Broad customer base** – Designed for active seniors and people with chronic illnesses, as well as their family members, caregivers and professionals.
- **More than mPERS. More than fall detection** – Libris is paired with the EverThere cloud platform with location services, family and caregiver social features, online device settings, customized notifications, and health insight and activity tracking options.

Numeram Personal Help Button with Fall Detection
