

Rectangular Boxes:
 A rectangular box is a three-dimensional shape with six rectangular faces, twelve edges, and eight vertices. It is also known as a cuboid.

Dimensions:
 The dimensions of a rectangular box are length, width, and height.

Volume:
 The volume of a rectangular box is calculated by multiplying its length, width, and height.

Surface Area:
 The surface area of a rectangular box is the sum of the areas of all six faces.

Applications:
 Rectangular boxes are commonly used in packaging, construction, and engineering.

Examples:
 A rectangular box with a length of 10 units, a width of 5 units, and a height of 3 units.
