& WOOD PACK

WARNING

- Contains Petroleum Distillates.
- Keep out of reach of children and pets.
- This product is combustible and is intended for outdoor use only. It is not intended to be used indoors or in any enclosed spaces e.g., (houses, garages, vehicles, tents). Doing so can cause the buildup of dangerous carbon monoxide and smoke.
- Pellets are not for animal or human consumption.
- If swallowed DO NOT induce vomiting, and contact poison control, a physician or local emergency services.
- For TIKI® Brand Fire Pit use only. Not intended for grills, smokers, pellet burners, stoves or any other burning system.
- Do not cover with anything but the TIKI® Brand Fire Pit Screen while pellets are burning or hot. Covering burning or hot pellets may result in a flare up or other dangerous conditions while the cover is on or when it is removed.
- Never leave the TIKI® Brand Firepit unattended while in use. This is when a fire is present, or the wood pellets are smoldering or hot.
- Store away from flame or direct heat source, or anything that may puncture the bag.
- Store in a cool, dry area and well-ventilated area.
- DO NOT use product while under the influence of drugs or alcohol.

WARNING: This product and combustion products emitted when this product is burning can expose you to chemicals including carbon monoxide which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65warnings.ca.gov.

WOOD PACK

REAL WOOD PELLETS | INSTANT LIGHT

JUST LIGHT  THE PACK

STEP 1

Light.

Place Wood Pack onto the cone and light each corner with a long stemmed match or lighter.

STEP 2

Burn.

As the bag burns the wood pellets will spill out. No need to stir. Fire will fill the pit within 5 minutes.

STEP 3

Repeat.

After approximately 30 minutes or as flames die down, add another wood pack or wood logs.

Made from real wood

The patent pending TIKI® Brand Wood Pack is made from Wood Pellets mixed with a starter fluid and sealed in the easy light bag. The pellets are made from sawdust that is sourced as a by-product from a number of manufacturing processes (lumber, window frames, hardwood flooring, etc.). The result is an energy dense and renewable way to light your fire.
