

# CALI<sup>®</sup> vinyl longboards

Portola Pier

## Expand Your Dimensions

Coastal shades, driftwood textures, and broader planks make Longboards a consistent classic. Planks stretch 70-7/8" long x 9" wide, for natural looking floors that install faster and create spaces that feel more open and serene. Like all CALI Vinyl collections, Longboards are completely waterproof, allowing for 'whole home flooring' with authentic hardwood visuals in every room. An ultra-thick 20mil wear layer delivers scratch protection from all the pets, kids, and party-people in your life, while built-in acoustic padding offers boosted sound insulation.

### Made for the Soak Zone

100% waterproof planks are exactly that, meaning Longboards can be installed in every room including kitchens, bathrooms, and basements. This also makes for easy cleaning!

### Authentic Wood Textures

Longboards planks don't just look like hardwood; they feel like hardwood as well, with specialized surface embossing that matches up with the knots and grains you see.

### Strength from Within

Each Longboards plank is reinforced by a limestone composite core which resists indentation, enables faster installations, and delivers 50% better dimensional stability.

**Construction** 100% Waterproof SPC Core

**Design** Wood

**Plank Length** 71"

**Plank Width** 9"
