## ULTIMATE SAFETY SUITE

Boost awareness and control during towing with unparalleled connectivity and comfort. With CURT OneControl<sup>®</sup> Auto, transform your truck and trailer into a smart, interconnected rig, easily monitored via smartphone or tablet.

# THE ULTIMATE PROTECTION FOR THE ROAD AHEAD

## True Course™ Advanced Bluetooth Control System

#51202

## Tire Linc® Auto Tire Pressure Monitor System

#57009

## Echo® Bluetooth Brake Controllers

#51200 shown

Part #	
51180	Echo Mobile Trailer Brake Controller
51190	Echo Under-Dash Trailer Brake Controller
51200	Echo In-Line Trailer Brake Controller

Emergency braking system combats sway caused by side winds, slippery roads and sudden movement.

### Features

- Connects wirelessly through your smartphone via Bluetooth connection
- Actively monitors tire pressures and temperatures in real-time
- Rechargeable 3.7V 5000mAh lithium battery for up to 60 hours of active use

This system allows you to monitor tire pressure and temperature as you tow in real-time, helping you to stay aware and safe.

### Features

- Prevents trailer sway by activating brakes independently of driver and brake controller
- Easy plug-and-play installation; mount module on trailer and plug in adapters
- Compatible with multiple makes and models and thoroughly tested on real vehicles

The Echo brake controller family connects through Bluetooth® and is compatible with an array of vehicles and towing applications.

### Features

- Allows you to control brake max output, adjust brake sensitivity and activate trailer brakes manually
- Wirelessly control up to four axles or eight individual trailer brakes, and maintain smooth, controlled braking
- Options for mobile, under-dash, and in-line brake controllers (see chart below)
