

4-OUTLET SURGE PROTECTOR with 2 USB PORTS

P403UC15

FEATURES

1. ON/OFF Reset Control Switch and Circuit Breaker

Controls power to all outlets. The switch is also a 15A breaker. When an overload occurs, it will automatically switch off. To resume operation, ensure the overload condition is removed and reset the surge protector by switching the unit ON.

2. Protected LED Indicator

Illuminated when the surge protection feature is working properly.

3. Standard Grounded Outlets (4)

4. USB-A Charging Port (1)

5. USB-C Charging Port (1)

6. Power Cord

CAUTION

TO REDUCE THE RISK OF ELECTRIC SHOCK:

Use only in dry locations and only indoors.

DO NOT plug into another relocatable power tap.

DO NOT "daisy chain" surge protectors.

DO NOT use with any aquarium equipment.

DO NOT use if properly grounded outlets are not available.

DO NOT install this device if there is less than 10 meters (30 feet) of wire between the electrical outlet and electrical service panel.

DO NOT use for medical or life support equipment. This device features an internal protection that will disconnect the surge protective component at the end of its useful life, but it will maintain unprotected power to the load.

SPECIFICATIONS

| | |
|--------------------------|-------------------------------|
| Model Number: | P403UC15 |
| Outlets: | Standard Grounded Outlets (4) |
| Power Cord Length: | 3 ft |
| Surge Protection: | 600 Joules |
| USB-A Charging Port (1): | 5V/2.4A |
| USB-C Charging Port (1): | 5V/3A |
| USB Total Output: | 18W |
| Electrical Rating: | 125V/15A/1875W |
| UL Clamping Voltage: | UL1449 4th/800V(L-N) |
| Maximum Peak Current | L-N 15,000 A |
| Response Time: | Less than 1 nanosecond |
| Circuit Breaker: | Resettable 15 Amp |

⚠ WARNING: This product can expose you to chemicals including vinyl chloride and bisphenol A (BPA), which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

TROUBLESHOOTING

If the ON/OFF Reset Control switches to the OFF position, the 15-amp circuit breaker may have been tripped. Examine your connected equipment and remove the device overloading the circuit, causing the trip. Then, turn the ON/OFF Reset Control back to RESET.

If the PROTECTED indicator does not light, the surge protector's outlets are no longer protected from power surges or spikes. The surge protector may have received a power surge or spike beyond its specified limits that have overloaded the protection circuitry and rendered it inactive. The surge protector has protected your connected equipment as designed, but it will not protect against future surges and spikes. It should be replaced.

CONFORMANCE APPROVALS

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against

harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
