

Star DM

D1

Hand Dishwashing Liquid

Highly concentrated hand dishwashing liquid for pots, pans, glass and all washable utensils.

Features & Benefits

- Highly concentrated formulation reduces waste, needs less storage capacity and gives excellent economy
- Stable lather produces longer life of dish washing solution
- Cleaning solution cuts through grease and dried-on food
- Rinsing is easy and streak-free
- Compact, off-the-floor system tucks out of the way

Applications

- Cleans pots, pans, china, glass and all washable utensils
- Controlled dosing via Divermite™/MC dispenser ensures consistency and maximum economy

Suma[®] Star DM

Hand Dishwashing Liquid

Use instructions

- For dosing accuracy Suma[®] Star DM D1 should be dosed via the Diversey Divermite^{TM/MC} Plus dispenser.

General Cleaning

- Use at a concentration of 1 dose of 15 mL per 40 liters warm water (0.5 oz in 10 gallons). Due to its concentrated nature, it is preferable to add Suma[®] Star DM D1 to running water.
- Soak items to be cleaned and wash with cloth, brush or scouring pad.
- Rinse thoroughly in clean water.
- Follow with rinse in appropriate Diversey sanitizing rinse solution. Allow to air dry. For heavily soiled items, an extra dose may be required.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
