Third Sink Sanitizer

D4 Plus

Super concentrated quaternary sanitizer for use in manual warewashing.

Features & Benefits

- Superconcentrated for unsurpassed use rates and end use economy
- Precise, reliable dosing system
- Simplifies warewashing procedure
- Controls use rates and chemical costs

Applications

- For use with the Divermite® System
- Completely self-contained, no water or electrical hook-up

Suma[®] Third Sink Sanitizer

Use instructions

- The Divermite[®] System offers total integration of product, package, and dispenser.
- Dosage is adjusted by the Diversey representative according to sink volume.
- Simply depress the Divermite[®] plunger while third sink is filling with water.
- When water level reaches the fill line, quaternary concentration will be 200 ppm.
- For Food Plant Use: All food contact surfaces must be thoroughly rinsed with potable water after treatment with this product. Avoid contamination of food during use or storage.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
