

# BIG GEM DIAMOND PAINTING

Age  
6+

# STICKERS

## Before you Begin

Clear your space so you have plenty of room to work. Spread out your colorful gem bags, gem tray, stylus, and sticky putty.

### Helpful Tips:

- Cover your work surface with a large towel. This will help contain the gems in case they spill.
- Use a resealable bag for storing your components.

## Prep your Gems

Find the sealed ends of each gem bag. Carefully peel it open, pour some into your gem tray, then reseal the bag. Leave some empty space in your tray. This will make it easier to pick up the gems with your stylus.

**Helpful Tip:** Upside down gems can be flipped over by shaking the tray side to side, or using your fingers.

## Stickers

The little sticky dots guide gem placement. Choose colors that match the designs or pick your own gem colors. It's up to you.

### Helpful Tips:

- Separate your stickers so you can work on one at a time. Use scissors to cut along the dotted lines before you remove the clear protective cover.
- If you don't have scissors handy, peel back a little of the protective cover as you work. Keep the sticky dots covered when not in use.

# Diamond Painting

**1**  
Press & twist the tip of the stylus into the sticky putty to fill it.

**2**  
Peel off the clear protective cover to reveal the adhesive.

**3**  
Pick up gems with the tip of the sticky putty-filled stylus. (When it stops working, refill it with more putty.)

**4**  
Place the gems on the adhesive dots. When finished, press down on the gems so they stay in place.

Ask adult permission before applying stickers to any surface.
