

## THE BATTERY

1. The battery is the power source for the vehicle.

2. It provides the electrical energy to start the engine.

3. It provides the electrical energy to power the lights and other accessories.

4. It provides the electrical energy to power the radio and other accessories.

5. It provides the electrical energy to power the horn and other accessories.

6. It provides the electrical energy to power the wipers and other accessories.

7. It provides the electrical energy to power the power windows and other accessories.

8. It provides the electrical energy to power the power locks and other accessories.

9. It provides the electrical energy to power the power mirrors and other accessories.

10. It provides the electrical energy to power the power seats and other accessories.

11. It provides the electrical energy to power the power windows and other accessories.

12. It provides the electrical energy to power the power locks and other accessories.

13. It provides the electrical energy to power the power mirrors and other accessories.

14. It provides the electrical energy to power the power seats and other accessories.

15. It provides the electrical energy to power the power windows and other accessories.

16. It provides the electrical energy to power the power locks and other accessories.

17. It provides the electrical energy to power the power mirrors and other accessories.

18. It provides the electrical energy to power the power seats and other accessories.

19. It provides the electrical energy to power the power windows and other accessories.

20. It provides the electrical energy to power the power locks and other accessories.

21. It provides the electrical energy to power the power mirrors and other accessories.

22. It provides the electrical energy to power the power seats and other accessories.

23. It provides the electrical energy to power the power windows and other accessories.

24. It provides the electrical energy to power the power locks and other accessories.

25. It provides the electrical energy to power the power mirrors and other accessories.

26. It provides the electrical energy to power the power seats and other accessories.

27. It provides the electrical energy to power the power windows and other accessories.

28. It provides the electrical energy to power the power locks and other accessories.

29. It provides the electrical energy to power the power mirrors and other accessories.

30. It provides the electrical energy to power the power seats and other accessories.

## DISASSEMBLY

Part No.	Qty.	Description
1	1	Battery
2	2	Terminal Posts
3	2	Connecting Cables
4	1	Central Component

1. Disconnect the battery from the vehicle.

2. Remove the battery cover.

3. Disconnect the negative terminal.

4. Disconnect the positive terminal.

5. Remove the battery.

1. Connect the positive terminal.

2. Connect the negative terminal.

3. Reinstall the battery cover.

4. Reconnect the battery to the vehicle.
