

This diagram illustrates the kinematic structure of a mechanism. The links are labeled as follows:

- Link 1: Ground
- Link 2: Crank
- Link 3: Coupler
- Link 4: Follower

The joints are labeled as follows:

- Revolute Joint (A)
- Revolute Joint (B)
- Revolute Joint (C)
- Revolute Joint (D)

KINSTON

This diagram illustrates the kinematic structure of a mechanism. The links are labeled as follows:

- Link 1: Ground
- Link 2: Crank
- Link 3: Coupler
- Link 4: Follower

The joints are labeled as follows:

- Revolute Joint (A)
- Revolute Joint (B)
- Revolute Joint (C)
- Revolute Joint (D)

This diagram illustrates the kinematic structure of a mechanism. The links are labeled as follows:

- Link 1: Ground
- Link 2: Crank
- Link 3: Coupler
- Link 4: Follower

The joints are labeled as follows:

- Revolute Joint (A)
- Revolute Joint (B)
- Revolute Joint (C)
- Revolute Joint (D)
