

The graph shows the relationship between the number of people and the number of people per room. The x-axis represents the number of people, and the y-axis represents the number of people per room. The curve shows that as the number of people increases, the number of people per room decreases, following a downward-sloping curve.

## QUESTION

The graph shows the relationship between the number of people and the number of people per room. The x-axis represents the number of people, and the y-axis represents the number of people per room. The curve shows that as the number of people increases, the number of people per room decreases, following a downward-sloping curve.
