PRECAUTIONS

Safe Notes

To avoid the risk of accident and the potential violation of applicable laws, the driver should never view video or operate this DVD player while the vehicle is moving.
The DVD video functions will only view or operate when vehicle is in park and the parking brake is engaged.

Accessories

Please check and confirm the accessories in the package before using this unit.

1. Mounting Sleeve
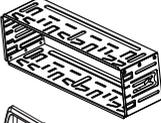

2. Trim Ring
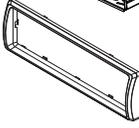

3. User Manual
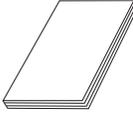

4. 12Pin PWR/SPK Harness

5. Remote Control

6. Metal Accessories Kits
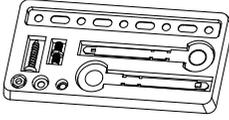

Including:
1) Meatal Mounting Strap: 1pc
2) Disassemble Keys: 2pcs
3) Tapping Screw: 1pc
4) Hex Bolt: 1pc
5) Hex Nut: 1pc
6) Plain Washer: 1pc
7) Spring Washer: 1pc

How to Handle Discs

- Handle a disc by its edges. Do not touch the playing side.
- Before inserting a disc, wipe the disc outward from the disc center with a clean, soft, dry and lint-free cloth. Do not use solvents or thinners such a petrol/benzene or cleaners.
- After removing a disc from the disc slot, place the disc in a sleeve or case to keep it clean and prevent scratches.
- Do not stick paper or tape on the disc surface. If there is glue (or adhesive) on the disc surface, remove it before using the disc.

Lithium Battery Cell Warnings

- Cell leakage may cause damage to the remote control.
- Do not throw cells into fire, as this may cause an explosion.
- Keep battery cells out of reach of children.

INSTALLATION

Prepare Radio

1. Before you begin, disconnect the battery negative terminal.
2. Remove the transport screws.
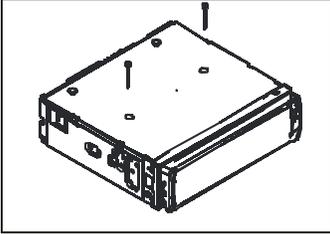

3. Remove chassis from the mounting sleeve.

BRACKET KEY

PLASTIC TRIM OUT

BRACKET KEY

If you want to remove the chassis from the mounting sleeve, first remove the plastic trim out from both sides. Next, insert the two bracket keys into the left and right side of the chassis, as illustrated, to separate the chassis from the housing.
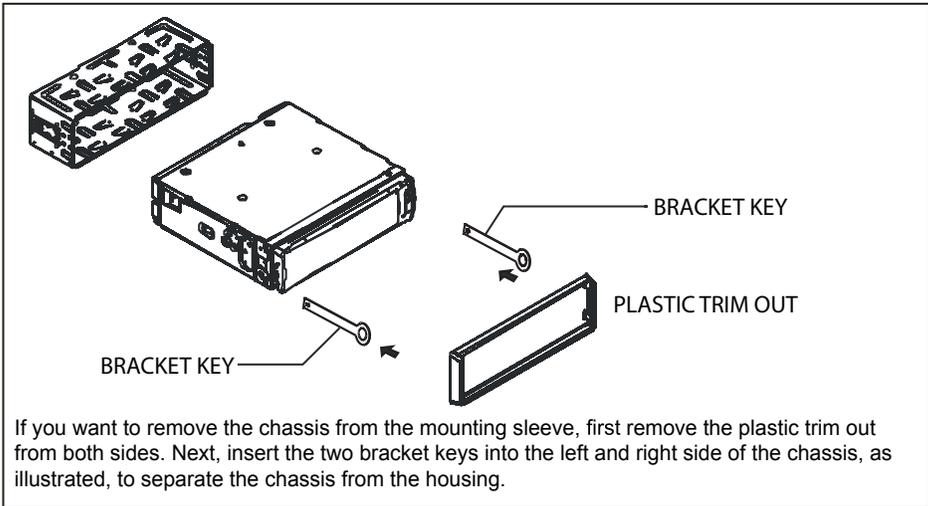

Mount Radio

Refer to the "Installation Diagram" to install the unit.

1. Bend the tabs on the mounting sleeve, where necessary, to ensure than the front part of the main unit will remain fixed into the vehicle dash opening.
2. Insert radio into the mounting sleeve.
3. Use a metal strap to secure the rear part of the chassis using the hardware indicated.
4. Make wiring connections, as illustrated in the "Wiring Diagram."
5. Install the plastic trim out.

GENERAL OPERATION

Turn Unit On/Off

Press the power (⏻) /SRC button to turn on the unit. Press and hold it to turn off the unit.

Press the power (⏻) button on the remote control to turn the unit on or off.

Adjust Volume (VOL)

Rotate the **VOL** knob on the front panel or press the **VOL+/-** button on the remote control to increase or decrease the volume level.

Adjust Menu Options (SEL)

- Press the **SEL** button repeatedly to cycle through the following adjustable audio functions: BASS, TREBLE, BALANCE, EQ OFF/ROCK/POP/CLASS/FLAT, LOUD ON/OFF, DX/LOC, STEREO/MONO and VOLUME.
- Press and hold the **SEL** button to access these additional functions: VOL (LAS/ADJ), AREA EU/US, Clock 12/24, and BEEP ON/OFF.
- Rotate the **VOL** knob on the front panel or press the **VOL+/-** button on the remote contol to adjust the selected item.

Change the Source (SRC)

Press the **SRC** button to switch between RADIO, BT, DISC, USB and AUX-IN modes.

2 Zone function (ZONE A / ZONE B)

This function enables audio to be separated from Front and Rear speaker outputs.
Press the **ZONE A**/**ZONE B** button to turn on or off the front/rear audio outputs: ZONE A ON, ZONE B ON, ZONE A+B ON, ZONE A+B OFF(ZONES OFF).

Set the Clock (CLK)

1. To display clock time, press and hold the **CLK** button on front panel.
2. To set clock time, press and hold the **CLK** button and the hour will flash.
3. Press the ◄◄ or ►►I button or press the **NEXT** or **PREV** button to adjust the hour.
4. Press the **CLK** button and the minutes will flash.
5. Press the ◄◄ or ►►I button or press the **NEXT** or **PREV** button to adjust the minutes.
6. Finally press and hold the **CLK** button to confirm the time adjustments.

Mute on/off (MUTE)

Press the **MUTE** button on the remote control to toggle mute on or off. The muted state will be also released, when the volume knob or **VOL+/-** button are used.

Reset System (RESET)

The **RESET** button is used to reset all parameters to factory default settings.
This function may be used when the LCD does not display normally or sound is distorted, or when any of the controls are disabled. To reset your system, use a thin object with a pointed end to depress the **RESET** button.

RADIO OPERATION

Switch Between US and EU Frequency

In radio mode, press and hold the **VOL** button to select the AREA EU/US, then rotate it to switch between US (USA) and EU (Europe) frequency. The system will change the frequency setting in about 3 seconds.

Change Bands (BAND)

Press the **BAND** button to switch between the F1 (FM1), F2 (FM2), F3 (FM3), A1 (AM1) and A2 (AM2) bands. Each band stores up to six preset stations.

Manual Tuning (◄◄ / ►►)

Press and hold the ►► or ◄◄ button to enter manual tuning mode. In manual tuning mode, press the ►► or ◄◄ button to move the radio frequency number up or down one step.

Auto Seek Tuning (◄◄ / ►►)

In standby mode or while not in manual tuning mode, quickly press the ►► or ◄◄ buttons to move to the next/previous available station automatically.

Auto Store / Recall Preset Station (AMS)

Press and hold the **AMS** button for more than 2 seconds to select six strong stations and store them in the current band. The radio will automatically scan the current frequency and enter the six strongest stations into the preset memory positions for that band.
Briefly press the **AMS** button on the remote control to scan each preset station in each band.

Store/Recall Preset Stations (1 - 6)

The radio can store 6 preset stations for each band (FM1, FM2, FM3, AM1 and AM2) for a total of 30 stored stations.
1. To memorize a station, turn the radio on and select the desired band and station.
2. Press and hold the desired preset button (numbered **1-4** on the faceplate, numbered **1-6** on the remote control) for more than 2 seconds to save the station to that preset number.
3. Repeat for the remaining five presets on the current band and for all presets on the other four bands.
4. A stored station can be recalled at any time by choosing a band and then pressing the corresponding preset button.

Local/DX

In urban areas, most stations are strong enough and "LOCAL ON" mode should be selected. Switch to LOCAL OFF mode to search for stations with weaker signals.
Press the **LOC** button on the remote control to choose local or distant reception mode.

Stereo/Mono

FM station is received in stereo mode. However, if the signal is weak or reception is not as good as you would like, switching to MONO mode usually improves the overall sound quality. Press the **ST** button on the remote control to choose FM STEREO or MONO audio effect.

DVD/CD/MP3/USB OPERATION

Insert Disc/USB

- To play files on a disc, insert a disc with the label surface up into the disc slot. Playback will begin automatically.
- To play files on a USB device, open the USB port cover and insert the USB storage device into the USB port. Playback will begin automatically.

Label Surface Up
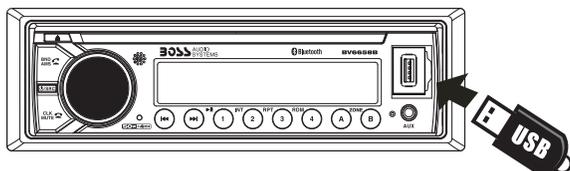

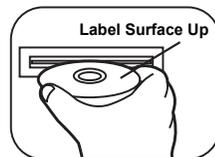

Eject Disc/USB

- To eject a disc, first press the ▶II button to stop playback. Press the ▲ (eject) button to eject the disc and then remove it.
- To eject a USB device, first press the ▶II button to stop playback, then remove the storage device.

Play/Pause Playback

Press the ▶II (play/pause) button to pause or resume playback.

Stop Playback

Press the ■ button on the remote control once to pause playback. Press the ▶II button to to resume playback. Press the ■ button twice to stop playback, press the ▶II button, the unit will play from the 1st song or video file.

Selecting Next / Previous Chapter / Title / Track

- To play the next chapter / Title/track, briefly press the ▶▶I or **SEEK+** ▶▶I button.
- To play the previous track, briefly press the I◀◀ or **SEEK-** I◀◀ button.

Fast Forward/Backward

- To fast forward, press and hold the ▶▶I or **SEEK+** ▶▶I button, With each long pressing, the speed of fast forward changes as follow: X02, X04, X08, X20, Normal Playback.
- To fast backward, press and hold the I◀◀ or **SEEK-** I◀◀ button, With each long pressing, the speed of fast backward changes as follow: X02, X04, X08, X20, Normal Playback.

Introduce Scan

Press the I**NT** button to play the first 10 seconds of each track, press again to stop the introduction scan and play the current track.

DVD/CD/MP3/USB OPERATION

Repeat Playback

• During DVD playback, press the **RPT** button to toggle between RPT CHP(repeat chapter), RPT TIT(repeat title), RPT ALL(repeat all) .
• During VCD playback, press the **RPT** button to toggle between RPT ONE(Continuously repeats current track), RPT ALL(repeats all tracks).
• During CD/MP3 playback, Press the **RPT** button to toggle between RPT ALL(Repeat all tracks), RPT FLR (Continuously repeats alltracks in current folder) and RPT ONE (Continuously repeats current track).

Random Playback

Press the **RDM** button to play all tracks in random order, press again to cancel this function.

Track Search

During disc, USB playback, press and hold the **AMS** button to enter the track search modes:

a) In playback of disc or files with MP3 format, press and hold the **AMS** button once to access the track or file number searching mode which allow you to quickly find a specific track or MP3 file by its serial number, and the "TRK SCH" and "TRK ****" will appear on the LCD display in sequence.
b) Rotate the **VOL** knob to select the number of your favorite track or file with high speed. You can also press the numerical keys on the remote control to select a specific track by its serial number.
c) Finally press the **SEL** button to confirm and play the selected track.

GO TO

During DVD/VCD playback, press the **GOTO** button on the remote control to search the desired track time to play the Disc. The OSD will be prompted. Use the the cursor keys (◀ , ▶ , ▲ , ▼), numeric keypad on the remote control to choose your desired chapter, track or time. Press the **ENTER** button to confirm your selection.

Program

In DVD/VCD playback, press the **PROG** button on the remote control to enter the program play mode, then user can set the sequence of playback.
Use the the cursor keys (◀ , ▶ , ▲ , ▼), numeric keypad to select the chapter number, title number and Track number. as your desired sequence.
Press the **ENTER** button to begin the program play.

Zoom in / Zoom Out

In DVD/VCD playback, press and hold this button repeatedly to zoom in or zoom out: ZOOM 2, ZOOM 3, ZOOM 4, ZOOM 1/2, ZOOM 1/3, ZOOM 1/4, ZOOM OFF.

Slow Playback

In DVD/VCD playback, press and hold this button repeatedly to play slowly: SL 1/2, SL 1/3, SL1/4, SL 1/5,SL 1/6, SL 1/7, SL off.

DVD/CD/MP3/USB OPERATION

Multi-Angle View
In DVD playback, press this button repeatedly to switch the viewing angle if the DVD disc is recorded with multi-angles.
 Note: The number of angles is different according to the disc.
The function only work for discs having scenes recorded at different angles.

Multi-Subtitle
In DVD playback, press this button repeatedly to switch the language of subtitle if the DVD disc is recorded with multi-subtitles.

Multi-Audio
In DVD playback, press this button repeatedly to switch the language of audio if the DVD disc is recorded with multi-languages. In VCD playback, press this button repeatedly to switch L/R or stereo audio track.

Title Playback
In DVD playback, press this button to return to title menu. The titles of DVD disc will be shown on the connected monitor. User can select the chapter by using the cursor keys (◀ , ▶ , ▲ , ▼) and numeric keypad, finally press the **ENTER** button to play the chapter.

PBC Playback
In VCD playback, press the PBC button on the remote control to turn on the PBC mode, the PBC menu of VCD disc will be displayed on the connected monitor. User can select the chapter by using the cursor keys (◀ , ▶ , ▲ , ▼) and numeric keypad, finally press the **ENTER** button to play the track.
Note: This PBC function is suitable for the SVCD and VCD2.0 disc.

OSD(On Screen Display)
In DVD/VCD playback, press this button repeatedly to show information such as Title number, Chapter number, Track number, elapsed time, remain time etc.

AUXILIARY INPUT OPERATION

This car radio is equipped an external auxiliary input jack (3.5mm) on the front panel, and a pair audio auxiliary input RCA connector at the rear cabinet of the head unit, it is compatible with audio output from an MP3 music player.
If you have plugged such a player into the AUX IN jack with a audio cable. Or connect other audio device to the audio auxiliary input RCA connector on the rear cabinet of the head unit with a audio input cable. Press the **SRC** button to switch to the AUX input mode, then you can listen to music from external devices.

Note:
Do not use the AUX IN jack and the audio auxiliary input RCA connector at the same time, otherwise, it will cause the audio auxiliary function unusable.

BLUETOOTH OPERATION

Pair and Connect

Prior to using the Bluetooth device as a handsfree system for a Bluetooth-enabled mobile phone for the first time, you must pair and connect the two devices as follows:

1. In any mode, prior to pairing and connecting, the BT logo flashes in the LCD indicating that no device is connected. To begin pairing, enable BT mode on your mobile phone.
2. When the phone finds the car audio system, the BOSS BV6658B name will be displayed.
3. Choose the BOSS BV6658B from the device list to pair and connect with the car audio system. Upon confirming, the BT logo will stop flashing.
4. When pairing is complete, the mobile phone audio will automatically transfer to the car audio system whenever a call is made or received, or when the mobile phone plays musics.

Make a Call

• To make a call, dial the call directly from the paired mobile phone.
• To make a call with this Bluetooth handsfree system.
   a) When linking up the Bluetooth mobile phone to this car audio handsfree system, press the ☎ button to access the dial telephone number mode, then press the "0~9", * and # button on the remote control to input the telephone number, the entered number will be shown on the LCD.
   b) If a number has been incorrectly input, press the ☎ button to delete it.
   c) Press the ☎ button to make outgoing call.

Redial Last Dialed Number

Press and hold the ☎ button on the control panel to redial the last dialed phone number.

Answer a Call

• When the mobile phone is called, the incoming telephone number displays in the LCD.
• To receive the call, press the ☎ button on the control panel or remote control.

Reject or End a Call

To reject the call or end an active call, press the ☎ button.

Switch Audio Between Car and Mobile Phone

During a call, press the **VOL** knob/button to switch the audio source from the car audio system back to your mobile phone.

Adjust Call Volume

• During a call, use **VOL** knob or **VOL +** and **VOL -** buttons to adjust the volume level.
• Use the **MUTE** button to mute sound.

Audio Streaming (A2DP)

1. Press the ⏻/**SRC** button to enter BT mode and display pause in the LCD.
2. When a mobile device is paired, music played through that device will automatically be heard through the car audio system.
3. Press the ►►I or I◄◄ button to play the next or previous song/file on the mobile phone.
4. Press the ►II button to pause or resume music playback.
