

FURRION

Vision S[®]+ Vehicle Observation Systems

Safely back into parking spaces with the Furrion Vision S+ RV backup camera and observation system. This configurable system acts as a security camera while giving you peace of mind on and off the road.

LIPPERT

FURRION®

Safety and security on and off the road.

Experience up to four different camera angles at once on a 5" or 7" monitor for maximum visibility. With a 140° viewing angle for doorway and rear cameras and 65° for the side cameras, Furrion Vision S+ gives you visibility all around your RV to reduce blind spots and make reversing easier and safer. Rear assist marker lines help you reverse safely with coverage right down to the bumper, making it easy to see blind spots and hidden obstacles when backing up.

Monitor

Ultra-wide angle and four views at once offer a safer driving and camping experience

High-resolution monitor for a crisp picture day or night

Auto-wake motion detect cameras for added security

Cameras (Side Camera / Doorway Security Camera)

1080p camera delivers real-time view with no interference or lagging (even at high speeds)

65° (side camera) / 140° (doorway camera) wide viewing angles

Intelligent night vision filter
