## PACKAGE AND HARDWARE CONTENTS

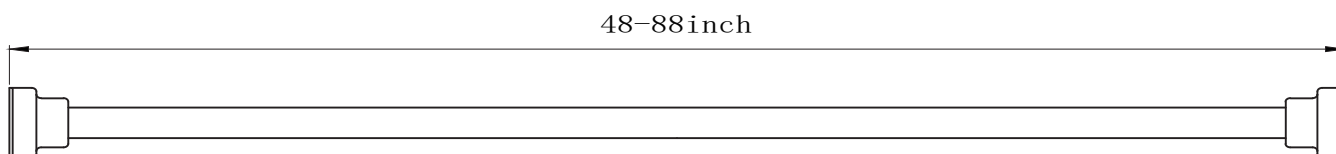

PART	DESCRIPTION	QUANTITY
A	Stainless steel pipe	2
B	Stainless steel foot cover	2
C	Rod base	2
D	Spring	1
E	Shower curtain ring	12

AC-AZSR55\*\* 33"- 55"

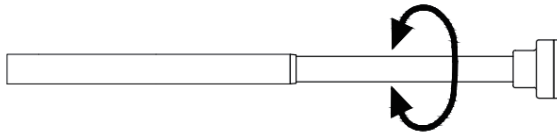

AC-AZSR88\*\* 48"- 88"

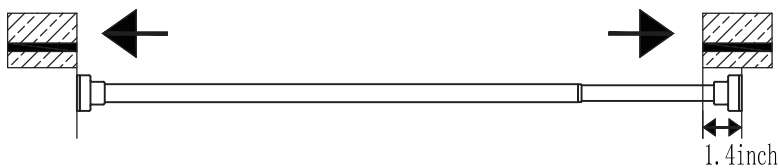

## Installation Guide

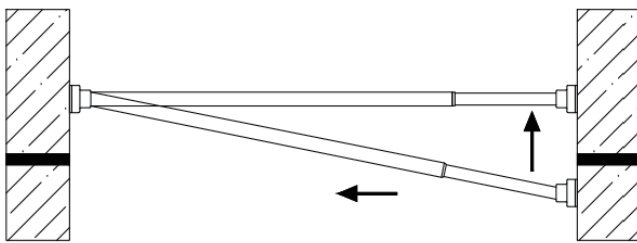

1. It is necessary to confirm how much distance the wall surface of the telescopic shower curtain rod is installed.
2. Rotate the shower curtain rod to elongate it

3. Adjust the shower curtain rod to a length about 1.4 inch longer than the distance from the wall surface.

4. Place one end of the shower curtain rod on the wall surface, tilt the shower curtain rod and then compress the spring to make the shower curtain rod between the wall surfaces. After adjusting the position of the shower curtain rod to level, release the shower curtain rod to make it rebound and fix on the wall surface.

## Spring Operated

The telescopic shower curtain rod is of full spring structure, and is fixed by the pressure generated by the telescopic spring and the supporting force of the wall surface.

## Attention:

Please do not turn the shower curtain lever when installing the fixed shower curtain lever.
