

# KINETIC GARDEN STAKE

Assembly Instructions

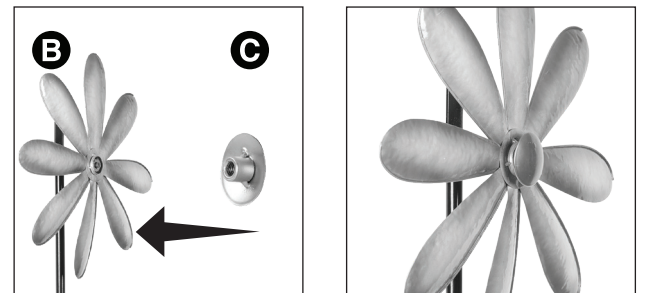

## Step 1:

Attach spinner (B) into T-pole (A) by sliding spinner into T-pole.

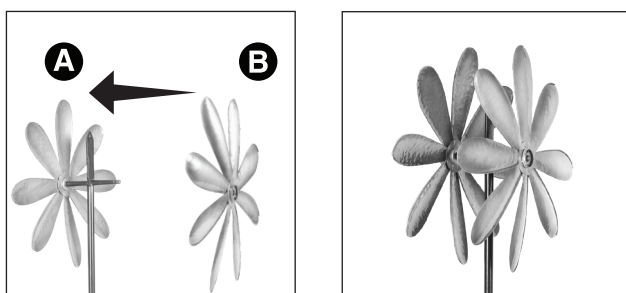

## Step 2:

Attach cap (C) into spinner (B) (result of step 1) by turning to the right until firmly tightened.

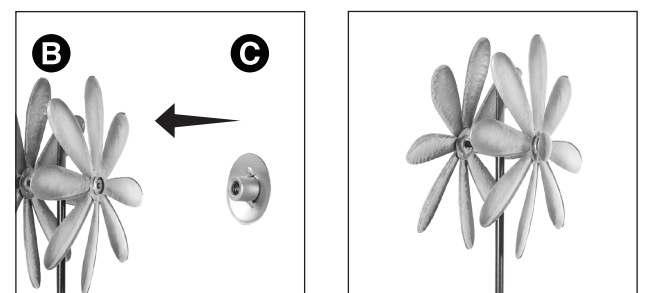

## Step 3:

Attach spinner (C) into other side of T-pole (A) (result of step 2) by sliding spinner into T-pole.

## Step 4:

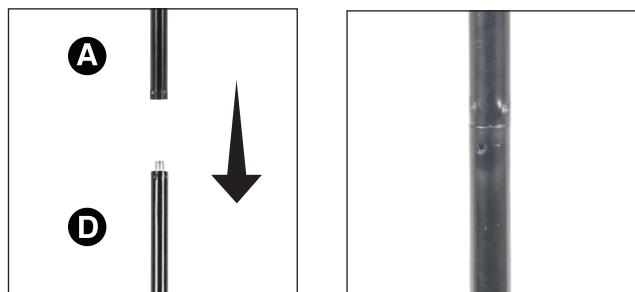

Attach second cap (C) into spinner (B) (result of step 3) by turning to the right until firmly tightened.

Lay Assembly on the ground for the following steps.

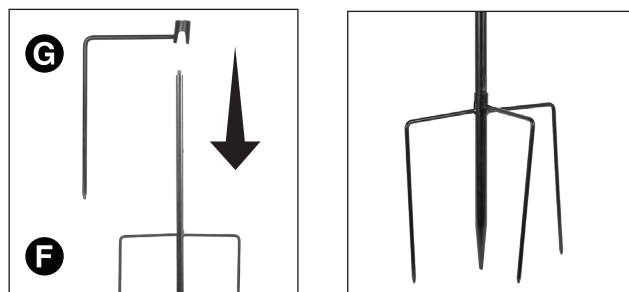

### Step 5:

Attach T-pole (A) (result of step 4) to middle pole (D) by turning to the right until firmly tightened.

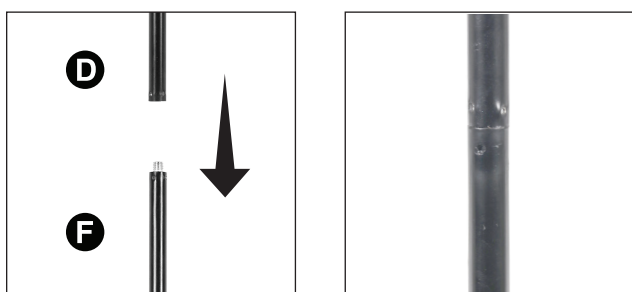

### Step 6:

Attach stake support (G) to stake base (F) by sliding stake support through the top of stake base.

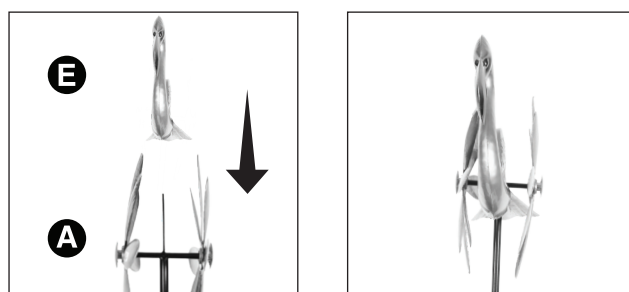

### Step 7:

Attach middle pole (D) (result of step 5) to stake base (F) (result of step 6) by turning to the right until firmly tightened.

### Step 8:

Attach flamingo (E) into T-pole (A) by placing flamingo on top of T-pole.

For best results, install on flat ground and ensure that the stake is 90 degrees vertical to the ground.
