

IRON MESH PLANT PROTECTOR HB-0526

Review all assembly and care information before using this product.

Save this manual for future reference.

**Assemble components on a soft, clean surface
to avoid damaging the finish.**

INSTALLATION/ASSEMBLY

Installing the plant protector into firm soil is recommended. If used with loose soil, animals could burrow beneath the cage and/or lift it out of the ground.

Ensure the hat/top is fully engaged with the body of the cage. If it is not properly installed, animals could push it off to gain access to plants.

WARNING:

Manufacturer and seller expressly disclaim any and all liability from personal injury, property damage or loss, whether direct or indirect, or incidental, resulting from the incorrect attachment, improper use, inadequate maintenance, or neglect of this product.

General Use & Care

We cannot foresee every possible scenario or climate in which this plant protector could be used. Information provided is a basic guide and may not be suited for your particular needs. Use sound judgment when using this item.

IMPORTANT: This plant protector is designed to help protect plants from animals such as rabbits and squirrels; it does not guarantee complete protection. This unit does not protect plants from frost. However, it may be used as a barrier between a plant and frost cloth (not included).

WATERING

Avoid super-cold water, as it could shock your plants.

The best time to water plants is in the cooler hours of the morning. Avoid watering plants too late in the evening, as excess moisture promotes plant disease and fungal infections.

MAINTENANCE AND STORAGE

Remove any plant debris and hose down the plant protector using a low-pressure garden hose with a sprayer. Mild dish soap and a soft cloth or soft-bristle brush may be used to gently scrub away stubborn dirt and pollen build-up. Do not use harsh chemical cleaners or abrasive materials to clean the unit.

Store in a cool, dry location when not in use.

The powder coating on the plant protector is tough and durable, but even under normal use, some scratching is inevitable. To avoid excessive rust, refinish scratched areas with a suitable outdoor paint (not included).

WARNING: THE ONE-YEAR WARRANTY DOES NOT COVER DAMAGES OR DEFECTS CAUSED BY THE APPLICATION OF CHEMICAL TREATMENTS, PROTECTIVE COATINGS, TOUCH-UP PAINT, OR CLEANING PRODUCTS.

Any modification to the product or failure to follow recommended care will void the product warranty.

If you experience issues with assembly or the product was damaged during transit, please contact our customer service team through one of the methods mentioned at the top of page 1.

Please have the item number and order information ready to expedite response time.
