

Proseal #1 Underbody Rubberised Coating

CRC Industries NZ, Auckland NZ

I. Product Description

CRC Proseal #1 Underbody Rubberised Coating is a professional grade, bituminous based formulation that forms a durable, waterproof protective coating. The long-lasting, flexible layer protects against rust, corrosion and abrasion. It insulates against road noise and seals out fumes, dust and moisture.

CRC Proseal #1 Underbody Rubberised Coating has excellent application, adhesion and stretch characteristics and is fast drying with no dripping, running or sagging. It has excellent adhesion to both painted and unpainted surfaces.

It is ideal for use in wheel arches, quarter panels, fenders and under carriages.

II. Features & Benefits

- Protects against rust, corrosion, moisture, heat and cold.
- High resistance to abrasion
- Excellent sound reduction
- Fast drying
- Excellent application, adhesion and stretch characteristics
- Paintable
- Convenient ready-to-use aerosol
- Water resistant
- Bituminous based formulation
- Provides superior adhesion to both painted and unpainted surfaces
- Does not drip, run or sag

III. Application and Directions

Preparation:

• Remove dirt and rust scale from the area to be treated. Surface should be clean and dry prior to application.

Application:

- Spray *CRC Proseal #1 Underbody Rubberised Coating* onto prepared surface, ensuring a thick, even coating is applied.
- Allow to dry for a minimum of 1 hour. Follow manufacturers recommendations for painting.
- Overspray can be removed with a light solvent such as turpentine.
- To prevent clogging after spraying turn can upside down and press nozzle for about 3 seconds.

Note:

- When painting this product it may not match the existing auto finish.
- Checking or cracking of paint applied over this product is not considered a product deficiency. Test small area first.

IV. Typical Properties and Characteristics

Appearance	Viscous Black Coating
Dry Time	1 hour
Flammability	Flammable Aerosol
Propellant	Hydrocarbon

Proseal #1 Underbody Rubberised Coating

Part Number Size 5121 500ml Aerosol

Package Description

VI. Special Precautions

General:

V.

Extremely flammable aerosol. Keep away from naked flames, electrical appliances/lights, lighted cigarettes, etc. Use with adequate ventilation. Store in a cool, well-ventilated area. Dispose of empty containers safely. All unused product should be disposed of in conformance with local and HSNO regulations, do not contaminate water supply.

Aerosol Cans:

Do not puncture, incinerate or store above 50 $^{\circ}$ C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

Swallowed – Avoid giving milk, oils or alcohol. Not considered a normal route of entry. Skin - Flush skin and hair with running water (and soap if available). Remove any adhering solids with industrial skin cleansing cream. DO NOT use solvents.

Eyes - Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Transport to hospital or doctor without delay.

Inhaled - Remove to fresh air. Lay patient down. Keep warm and rested.

Refer to Material Safety Data Sheet for more details.
