

PROBING

THE DEPTHS OF

When I first started reading to my child, I was told that it was important to start early. But I was a bit skeptical. I thought that my child would just be bored by the time I started. But when I started reading to her, I was surprised to find that she was actually interested. She would sit on the floor with me, and we would read together. I would read the words, and she would look at the pictures. It was a simple, but powerful, way to introduce her to the world of books. And as she grew, she began to read on her own. She would pick up a book and read to herself. It was a wonderful moment for me, and I knew that I had done the right thing. Reading to my child had opened up a whole new world for her.
