

Oven & Grill Cleaner

ready-to-use grease remover

Oven & Grill Cleaner is a clear, lemon-scented, ready-to-use formula created to remove the build-up on ovens and grills. Baked-on carbon, grease and food deposits present potential health and fire hazards, reduce oven and grill heating efficiency and cause unpleasant odors. This cleaner minimizes these common problems safely and quickly.

Providing Quality Maintenance and Chemical Specialty Solutions with Unparalleled Customer Service

Spartan Chemical Company, Inc.

FAST ACTING

Oven & Grill Cleaner provides rapid penetration and emulsification of baked-on carbon, grease and food deposits.

SAFE

Oven & Grill Cleaner is safe to use when the preliminary steps are taken and the directions are followed. The formula is non-flammable despite its caustic nature.

VERSATILE

Oven & Grill Cleaner effectively cleans hot or cold surfaces and may be used for a quick clean-up or a thorough overnight cleaning. This formula is recommended for use in cleaning commercial and institutional ovens, grills, griddles, charbroilers, drip pans, hoods, rotisseries, deep fat fryers, and small cutlery items.

VOC COMPLIANT

Spartan has always been proactive in matters concerning health, safety and the environment. In keeping with this philosophy, Oven & Grill Cleaner complies with strict, new VOC restrictions.

PLEASANT TO USE

The lemon fragrance of Oven & Grill Cleaner tends to minimize unpleasant odors or fumes often associated with oven cleaners.

PACKAGED FOR CONVENIENCE AND ECONOMY

Aerosol and bulk packaging of Oven & Grill Cleaner provide convenience and economy for the user.

DIRECTIONS FOR USE

Some individuals exhibit skin sensitivity to even the mildest products. Employees should wear gloves at the first indication of sensitivity reaction. Due to Oven & Grill Cleaner's caustic nature, the following preliminary steps are recommended:

1. Cover electrical switches and connections.
2. Protect flooring with newspaper.
3. Minimize cleaner contact with clothing, painted surfaces, copper, aluminum, and chrome trim.
4. Wear Rubber Gloves.
5. Be certain ventilation is adequate.
6. If oven is preheated, do not exceed 200°F/93°C.

TURN OVEN OFF BEFORE APPLYING OVEN & GRILL CLEANER.

Apply undiluted Oven & Grill Cleaner to sides and top of oven first, then on remaining surfaces. Allow cleaner to work 5-10 minutes on warm surfaces; 15-20 minutes on cold surfaces. Wipe with damp cloth or sponge and rinse thoroughly with potable water. Stubborn deposits may require more than one application and a scrub with a synthetic pad. After cleaning, heat oven to 200°F/93°C for ten minutes before using. See manufacturer's recommendations for resizing grills with vegetable oil.

DEEP FAT FRYERS

Remove excess grease. DILUTE one part Spartan Oven & Grill Cleaner to ten parts water. Boil 15 minutes. Scrub with brush. Drain and rinse thoroughly with potable water. Air dry.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATIONS

- pH (Concentrate)- 13.5–14.0
- Specific Gravity- 1.049 @ 24°C/75°F
- Density- 8.74 lbs./gal. @ 24°C/75°F
- Flash Point (Cleveland Open Cup)- None
- Stability:
 - a. Shelf @ 24°C/75°F - One year
 - b. Accelerated @ 49°C/120°F - 60 days min.
 - c. Freeze/thaw - Product will withstand a minimum of one freeze/thaw cycle

Biodegradable
 NSF Registered
 Kosher and Pareve
