**Gets into grooves
for an efficient,
deep clean.**

**3M™ Melamine Floor Pads are effective
for daily, deep and spot cleaning.**

Tailor-made for use on textured and grouted floor surfaces, this highly effective pad will clean most dirt and marks with water alone — and for more stubborn soils with a mild detergent.

**Can clean
using water
alone.**

3M™ Melamine Floor Pads are ideal for modern grouted floor surfaces such as ceramic, terracotta, and marble.

Built-in durability

3M™ Melamine Floor Pads are uniquely formulated from high-strength melamine foam, bound with adhesive to dramatically improve their abrasive strength and durability. This open cell structure makes light work of ingrained dirt and unsightly scuff marks.

Flexible and easy to use

- Use wet with or without cleaning chemicals
- Eraser-like effect on stubborn black marks
- Cleans effectively with water alone
- Swing machines, rotary floor machines, low speed automatic scrubbers and fits all standard pad holders
- Available in a variety of sizes

There may be some visible differences between pads in the amount of gray versus white, but this will not affect the pad performance.
