

The graph shows the relationship between the number of people and the number of people per room. The x-axis represents the total number of people, and the y-axis represents the number of people per room. The curve indicates that as the number of people increases, the number of people per room decreases, following a hyperbolic-like relationship.

QUESTION

The diagram illustrates a concept related to the graph, possibly area or volume. It shows a large rectangle divided into several smaller rectangular sections. The sections are arranged in a grid-like pattern, with some sections being larger than others.

Answer:
