INSIGHT & APPLICATION

Insight & Application

- ! My physical and mental **well-being** is very important for me. My bath and my shower may be **small**, nevertheless I'm looking for ways to escape everyday life, **seek relaxation** after a stressful day or inspirations for new ideas.
- ! Because **space** in my shower is rather **limited**, I always hit the fittings or the care products on the ground. It's just not that **comfortable** and true relaxation is not possible.
- ! Even if I only have a limited **budget** I still want to make sure that I spend the money on **long-lasting** products and a **design** that fully matches the style of the rest of my home.
- ! When I buy new products, I pay attention to **ecological** aspects e.g. reducing **water consumption**.
