

Non-Volatile Matter	25.6 - 26.2%
---------------------	--------------

Safety

See safety datasheet (if applicable) and product label for safety information, handling and proper use.

Directions for Use

PRE-SOAKING: Add 1 oz. (2 tbsp.) DISH PRESOAK per gallon of warm (120°F) water. Remove excess soil from utensils before submerging in pre-soak solution. Soak until soil is softened. After pre-soaking, wash utensils in normal manner. **DETARNISHING SILVER:** Add 1 oz. (2 tbsp.) DISH PRESOAK per gallon of warm (120°F) water. Submerge aluminum foil in pre-soak solution. Place the silverware in contact with the aluminum foil in the pre- soak solution. Soak for at least 5 minutes. Wash immediately after soaking. **DO NOT** use aluminum containers or aluminum foil with stainless steel tableware.

Dish Presoak is a pre-soak cleaner for tableware and flatware and also a detarnisher for silver. It softens and loosens the toughest food soils for easy removal in the dish machine. Due to special water conditioning agents, Dish Presoak gives excellent results in all water conditions. Oxide removal agents in Dish Presoak remove tarnish from silver by safe electrolytic action. Designed to be used for institutional presoaking of utensils. NEVER pour directly on ware. Keep out of dish machine.

Features & Benefits

- Loosens soil quickly.
- Detarnishing capabilities.
- Can use in all types of water conditions.

Item Number & Unit of Measure

Item Number	HIL0001206
Unit of Measure	1 gal Bottle

Specifications

Color	Blue
Appearance	Clear Blue
Fragrance-Free	Yes
Fragrance	No Added Odor
Formula Type	Liquid
Dilution Ratio	1 OZ/GAL
PH	1% 9.7 - 10.4
