Celebrate the season by making
and sharing a handmade holiday craft.

EASY SPARKLE WINDOW ART

MAKE SPARKLING
WINDOW ART
TO DECORATE
YOUR WINDOWS
OR ANY SMOOTH
GLASS SURFACE.

DISPLAY

When your designs are dry, peel them off the plastic backer and place them on a clean window. If they are not peeling off easily, that means they need more drying time.

PERFECT FOR
PARTIES AND
GIFT EXCHANGES

Christmas Easy Sparkle Window Art

Important Information About This Paint

- The paint included is a specially formulated non-toxic acrylic paint that dries permanently on most surfaces, so be careful.
- Paint may stain fabrics, furniture and other porous surfaces. Wear old clothes and cover your work area.
- Clean up any spills while paint is still wet.
- Save any leftover paint to touch up your designs.
- Seek adult permission before displaying your window art. Do not apply the window art to wood, fabric, painted surfaces etc... place them on a clean window.
- Sun and other temperature conditions may cause your designs to fade over time.
- Adults can remove any paint or foam adhesive residue using window cleaner as needed.

PAINT TECHNIQUES

Plan out your design before you begin. Use the larger tubes of paint for covering larger areas of your designs. The smaller paint tube can be used for accents. Refer to the pictures on the box for ideas. Be sure the foam outline is securely adhered to the plastic backer.

Squeeze out the paint, filling in each section of your designs so no clear areas remain. Use the tip of the tube to move the paint around. Be sure to cover all inside edges so the paint forms a seal against the foam outline. You can decorate the top of the foil with your window paint. Any unwanted paint can be wiped off before it dries.

PRO TIP: Use a toothpick to push paint into smaller areas.

Set your designs aside to dry (at least 24 hrs.) Hold your design up to the light to see any areas that need more paint. Be sure the inside edges of foil are covered. Add a second coat of paint where needed.

RHINESTONES, PAINT AND WIGGLY EYE ACCENTS

Be sure paint is dry before proceeding. To attach the rhinestones and wiggly eyes add a dot of paint to your designs and press them into place. Set them aside until completely dry.

PRO TIP: To keep your paints from drying out, always replace the caps when not in use.
