

D10 Concentrated

Sanitizer Disinfectant

Quaternary ammonium chloride-based no-rinse sanitizer for three-compartment sinks and food contact surfaces.

Features & Benefits

- Designed specifically for food service establishments and other institutions where hygiene is of prime importance
- Formulated to aid in the reduction of cross-contamination in hospitals, schools, institutions, and industry
- Provides effective cleaning of hard, nonporous surfaces when used as directed
- Offers the versatility of a no-rinse sanitizer with active cleaning power — can also be used as a disinfectant
- Is a one-step disinfectant-cleaner that is effective against a broad spectrum of bacteria, is virucidal*, fungicidal and will inhibit the growth of mold and mildew and their odors when used as directed

Applications

- For hard, nonporous food contact surfaces including tables, utensils, chopping blocks and third-sink sanitizing operations
- Safe for soft and precious metals (silver and gold)

D10 Concentrated

Sanitizer Disinfectant

Use instructions

See label on original container for complete directions for use and additional information.

Cleaner, Disinfectant, Sanitizer, Fungicide, Mildewstat, Virucide.

- This product is a one-step disinfectant in the presence of moderate amounts of soil.
- Apply this product to walls, floors and other hard, inanimate, nonporous surfaces such as tables, chairs, countertops, sinks and bed frames with a cloth or mop so as to thoroughly wet surfaces.
- For heavily soiled areas, a preliminary cleaning is required.
- Prepare a fresh solution daily or when use solution becomes visibly dirty.
