

Women's Health Probiotic

Restores Healthy Vaginal Flora

- Clinically studied strain for a healthy vaginal microbiome
- Probiotic strains support the healthy growth of normal vaginal flora as well as resistance to dysbiosis and infection
- Contains 10 specific strains of *Lactobacillus* and *Bifidobacterium* and a minimum of 25 billion CFUs per single vegetarian capsule (85 billion at the date of manufacture)
- One capsule per day, oral dosing

Code: 9675 **NPN:** 80117330
Size: 60 Vegetarian Capsules
Actual Size: 17.9 mm x 6.35 mm

PRODUCT SUMMARY

Women's Health Probiotic provides a unique combination of multi-species probiotics that are clinically studied strains to support a healthy vaginal microbiome as well as gastrointestinal health. Comprised of 10 strains of *Lactobacillus* and *Bifidobacterium*, one capsule per day provides a clinically effective dose of 25 billion CFUs. These probiotic species support a healthy vaginal ecosystem through multiple mechanisms, including the modulation of local immunity and the production of lactic acid, hydrogen peroxide, and bacteriocins, compounds with antimicrobial effects that are effective at very low concentrations and unlikely to develop bacterial resistance. Lactobacilli normally comprise at least 70% of the vaginal microbiome, with oral probiotic supplementation providing protection from pathogens and infectious organisms, including *Gardnerella vaginalis* and *Candida* spp.

Nearly 90% of the CFUs in Women's Health Probiotic are lactobacilli, including species shown to populate the vaginal flora following oral supplementation. Oral supplementation with *L. plantarum* P17630, for example, has been shown to promote vaginal growth of lactic-acid-producing bacteria, and inhibit *Candida* spp. overgrowth in women with recurrent vulvovaginal candidiasis. Similarly, vaginal growth of *L. paracasei*, *rhamnosus*, and *acidophilus*, as well as *Bifidobacterium animalis* subsp. *lactis* has been shown to increase following oral supplementation, providing protection against vaginal dysbiosis and infection.

WOMEN'S HEALTH PROBIOTIC

RESTORES HEALTHY VAGINAL FLORA

Serving Size: 1 Vegetarian Capsule

Servings Per Container: 30

Each Vegetarian Capsule Contains:

25 billion active cells* of the following specially cultured strains of probiotics:

<i>Lactocaseibacillus paracasei</i> (R0215) (whole cell)	33.6%	8.4 billion CFU
<i>Lactocaseibacillus rhamnosus</i> (GG) (whole cell)	30%	7.5 billion CFU
<i>Lactiplantibacillus plantarum</i> ROSELLA (P17630®) (whole cell)	20%	5 billion CFU
<i>Bifidobacterium animalis</i> subsp. <i>lactis</i> (LAFTIB94) (whole cell)	10%	2.5 billion CFU
<i>Lactiplantibacillus plantarum</i> (R1012) (whole cell)	2%	0.5 billion CFU
<i>Bifidobacterium longum</i> subsp. <i>longum</i> (HA-135) (whole cell)	1%	0.25 billion CFU
<i>Lactobacillus acidophilus</i> (R0418) (whole cell).....	1%	0.25 billion CFU
<i>Lactocaseibacillus helveticus</i> (R0052) (whole cell)	1%	0.25 billion CFU
<i>Lactocaseibacillus rhamnosus</i> (R0011) (whole cell)	1%	0.25 billion CFU
<i>Bifidobacterium bifidum</i> (R0071) (whole cell).....	0.4%	0.1 billion CFU
Vitamin C (ascorbic acid).....		12 mg

CFU: colony forming units

*Guaranteed minimum 25 billion active cells per capsule at expiry date.

Guaranteed minimum 85 billion active cells per capsule at manufacture date.

Non-medicinal Ingredients: Vegetarian capsule (carbohydrate gum [cellulose], purified water), potato starch, vegetable grade magnesium stearate (lubricant).

Recommended Adult Dose: 1 capsule per day or as directed by a health care practitioner. Take at least 2–3 hours before or after antibiotics.

Recommended Use: Contains clinically tested strains to maintain a healthy vaginal microbiome and support vaginal health. Helps manage acute infectious diarrhea. Supports gastrointestinal health and immune function.

Caution: Consult a health care practitioner prior to use if you have fever, vomiting, bloody diarrhea, or severe abdominal pain. Stop use and consult a health care practitioner if symptoms of digestive upset (e.g., diarrhea) occur, worsen, and/or persist beyond 3 days. Do not use this product if you have an immune-compromised condition (e.g., AIDS, lymphoma, patients undergoing long-term corticosteroid treatment). Keep out of reach of children.

Contraindications: No known contraindications. Multiple strains of *Lactobacillus* and *Bifidobacterium* have been used safely during pregnancy and lactation.

Drug Interactions: No specific interactions, should be taken 2–3 hours before or after antibiotics.

Contains no artificial colours, preservatives, or sweeteners; no dairy, wheat, gluten, soy, corn, egg, fish, shellfish, animal products, salt, tree nuts, or GMOs. Suitable for vegetarians/vegans. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
