

RVIBRAKE SHADOW™ 2 INSTALLED BRAKE SYSTEM

The CURT RVIBrake Shadow™ 2 is the all-in-one braking solution designed to stay out of sight but always ready to protect — no unpacking, no positioning, no daily adjustments. Just reliable stopping power that's hardwired and ready to stand guard every time you tow

RVBRAKE SHADOW™ 2 INSTALLED FLAT TOWING BRAKE SYSTEM

SMART FEATURES FOR SAFE, EFFICIENT TRAVELING

Tow mode detection

Provides reliable braking power with an ultra-fast 0.5-second reaction time, keeping you in control and reducing stopping distance

Permanent installation

Requires no setup before each trip and with tow-mode detection, it automatically recognizes when you're towing and activates the brakes

Plug-and-play install

No wire crimping, soldering, or disassembly. It comes with all necessary components and is guaranteed to fit most vehicles

Smart battery charging technology

The built-in 10-amp battery charger ensures your towed vehicle's battery stays charged while you travel. This added functionality helps prevent battery drain and keeps your system running efficiently

Additional Features

- Adds braking capabilities to your towed vehicle when flat towing behind an RV
- Required by law in 49 of 50 states and all of Canada
- Permanently installed design means no user setup after installation
- 0.5-second reaction time helps keep you safe on the road
- Guaranteed to fit most makes, models, and years of vehicles (scan QR code below to verify fitment)
- Includes Bullseye wireless monitor and range extender for real-time monitoring
- Limited lifetime warranty (one-year finish, one-year parts)
