

1. Confirm that the power switch on the inflator is in the "O" (OFF) position.
2. To use the inflation accessories, screw either piece into the air hose connector from the inflator by turning the hose attachment onto the inflation accessory threads in a clockwise direction until secure.
3. Plug power cord into 12V DC power outlet.

## OPERATING INSTRUCTIONS - TIRES

4. Plug power cord into 12V DC power outlet.
5. Turn inflator power switch to "I" (ON) position and inflate to the manufacturer's recommended air pressure.
6. Once desired pressure is reached, turn power switch to the "O" (OFF) position.
7. Unplug the power cord from 12V DC power outlet.
8. Remove the air hose attachment from the tire valve threads by turning in a counterclockwise direction.
9. When inflating truck or trailer tires manually to 40 psi or less before is recommended that the tire is deflated requiring pressure greater than 50 psi, it is recommended that the tire is deflated manually to 40 psi or less before beginning inflation. This operation allows the inflator to gradually reach the desired pressure and prevents the inflator's pump from stalling.

## OPERATING INSTRUCTIONS - INFLATABLES

1. Confirm that the power switch on the inflator is in the "O" (OFF) position.
2. To use the inflation accessories, screw either piece into the air hose connector from the inflator by turning the hose attachment onto the inflation accessory threads in a clockwise direction until secure.
3. Plug power cord into 12V DC power outlet.
4. Insert the appropriate inflation accessory into the inflatable object (tire, football, raft, etc.).
5. Turn inflator power switch to "I" (ON) position and inflate to the manufacturer's recommended air pressure.
6. When the object is firm, turn power switch to the "O" (OFF) position. **DO NOT OVER INFLATE OBJECTS.**
7. Unplug the power cord from 12V DC power outlet.

## OPERATING INSTRUCTIONS - INFLATABLES

### OPERATING INSTRUCTIONS - INFLATABLES

1. Confirm that the power switch on the inflator is in the "O" (OFF) position.
2. To use the inflation accessories, screw either piece into the air hose connector from the inflator by turning the hose attachment onto the inflation accessory threads in a clockwise direction until secure.
3. Plug power cord into 12V DC power outlet.
4. Insert the appropriate inflation accessory into the inflatable object (tire, football, raft, etc.).
5. Turn inflator power switch to "I" (ON) position and inflate to the manufacturer's recommended air pressure.
6. When the object is firm, turn power switch to the "O" (OFF) position. **DO NOT OVER INFLATE OBJECTS.**
7. Unplug the power cord from 12V DC power outlet.

## TROUBLE SHOOTING

### INFLATOR DOES NOT WORK WHEN SWITCHED TO "ON":

- Power cord may not be plugged in completely. Check the connection.
- Check vehicle power outlet and power plug terminals for dirt. Use a non-conductive probe, not fingers or metal, to clean.
- Check vehicle power outlet fuse, which should be a minimum of 15 Amps.
- Fuse may have blown. Check fuse in power plug adaptor and replace if necessary with one of the same amperage. NEVER replace a blown fuse with a fuse having a higher rating.

### UNIT IS RUNNING BUT TIRE IS NOT INFLATING:

- Check that the air hose connector is attached properly to the tire valve stem.
- Check for tire leaks or damage, and check air hose for breaks and leaks at fittings.

### INFLATOR FEELS HOT OR RUNS SLOWLY:

- Unit may have overheated. Shut the unit off and allow to cool for 20-25 minutes.
- NEVER use this inflator for more than 10 minutes continuously.
- Voltage may be too low. Check condition of vehicle battery.

## FEATURES

- Large Dial Pressure Gauge
- 3 Super Bright LED Lights for Night-Time Emergencies
- Dual On/Off Switches for Inflator and LED Lights
- 15" Air Hose with Screw-On Chuck
- Air Accessories Include: Sports Ball Needle, Raft & Toy Inflator Nozzles, Presta Valve Adapter
- 10 Ft. Power Cord with 12V Power Cord - Plugs into any 12V vehicle power outlet; Input 12V with 15A fuse
- Keep inflator dry, clean, and free from oil and grease. Always use a clean cloth when cleaning. Never use brake fluids, gasoline, petroleum-based products, or any strong solvent to clean the inflator. Operate the inflator only with the attachments that are included.
- USE SAFETY GLASSES. Also use face or dust mask if operation is dusty.
- Your vehicle's 12 Volt battery must be fully charged to get the best performance from your inflator. If your vehicle's battery is weak, the inflator will not work at its maximum output level.
- NEVER exceed the manufacturer's recommended pressure for any inflatable object. DO NOT OVER-INFLATE OBJECTS. Over inflation can cause personal injury and/or property damage.
- HOT - Do not hold in hand while operating. Place compressor on ground during use.
- KEEP OUT OF THE REACH OF CHILDREN. The inflator is not a toy and is not intended for use by children.
- USE 12 VOLT DC power only. Make sure that your vehicle's 12 Volt power outlet is free of any ash residue or debris. A dirty 12 Volt power outlet can cause the inflator and power cord to overheat. Overheating can cause damage to your inflator/vehicle and could cause bodily harm or injury.
- For use with any 12V DC power outlet rated 15 Amps or higher. Do NOT use with older 8 Amp cigarette lighter receptacles.
- This inflator is designed to inflate car tires, bike tires, sports equipment, air mattresses, beach toys and other inflatable. DO NOT USE FOR ANY PURPOSE OTHER THAN INFLATING. BODILY HARM OR PERSONAL INJURY CAN OCCUR.

## SAFETY GUIDELINES / DEFINITIONS

### IMPORTANT SAFETY INFORMATION

- **WARNING** Danger indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.
- **WARNING** Warning indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.
- **NOTICE** Notice indicates important information, that if not followed, may cause damage to equipment.
- **CAUTION** Caution indicates a potentially hazardous situation which, if not avoided, MAY result in minor or moderate injury.
- **NOTICE** Notice indicates important information, that if not followed, may cause damage to equipment.
- NEVER exceed the manufacturer's recommended pressure for any inflatable object. DO NOT OVER-INFLATE OBJECTS. Over inflation can cause personal injury and/or property damage.
- HOT - Do not hold in hand while operating. Place compressor on ground during use.
- KEEP OUT OF THE REACH OF CHILDREN. The inflator is not a toy and is not intended for use by children.
