

Measurement and Data

Contents

Lesson 1 Standard Units	64
Objective: Estimate and measure length using standard units.	
Manipulative: Inchworms™	
Lesson 2 Inches and Feet	68
Objective: Recognize the relationship between inches and feet.	
Manipulative: Inchworms, Inchworms Ruler	
Lesson 3 Choosing a Unit	72
Objective: Choose the appropriate unit to measure length.	
Manipulative: Inchworms, Inchworms Ruler	
Lesson 4 Estimating and Measuring	76
Objective: Estimate and measure in customary and metric units.	
Manipulative: Base Ten Blocks, Color Tiles	
Lesson 5 Comparing Two Lengths	80
Objective: Measure differences in length.	
Manipulative: Inchworms, Inchworms Ruler	
Lesson 6 Whole Numbers as Lengths on a Number Line	84
Objective: Represent whole numbers as lengths on a number line.	
Manipulative: Cuisenaire® Rods	
Lesson 7 Time to 5 Minutes	88
Objective: Tell time in 5-minute intervals before and after the hour.	
Manipulative: Geared Mini-Clock	
Lesson 8 The Penny and Nickel	92
Objective: Know the relationship between the penny and the nickel.	
Manipulative: Coin Tiles	
Lesson 9 Penny, Nickel, and Dime	96
Objective: Know the relationships between the penny, nickel, and dime.	
Manipulative: Coin Tiles	
Lesson 10 Understanding Quarters	100
Objective: Know the quarter.	
Manipulative: Coin Tiles	
Lesson 11 Solve Problems Involving Coins	104
Objective: Solve problems involving pennies, nickels, dimes, and quarters.	
Manipulative: Coin Tiles
