## VK9

## Concentrated Neutral Detergent for Manual Use

### Description

Shureclean Plus cleaner is a concentrated, neutral, high-foaming liquid detergent designed for general purpose application in the food, beverage and dairy industries.

### Versatile

- Multi-purpose product
- Suitable for soft or hard water
- Suitable for manual use

### Cost-Effective

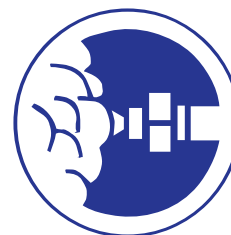

- Highly economical

### Easy-to-Use

- Non-perfumed product

### Discussion

Shureclean Plus cleaner contains a concentrated blend of high foaming detergents and emulsifiers. Its balanced neutral formulation provides effective cleaning especially against oils and fats. It can be used on most types of surfaces including plastics and soft metals such as aluminum. This product is recommended for manual and soak cleaning of all food preparation equipment, cooking vessels and utensils. It can also be used for cleaning floors, walls and work surfaces. This product is high foaming and free rinsing. It is suitable for manual application with a cloth, brush or spray applicator and also for soak tank cleaning.

## Concentrated Neutral Detergent for Manual Use

### Use Instructions

Shureclean Plus detergent is used in cleaning operations such as manual or brush, spray applications, egg breaking machines, dairies, fillers, vats, tanks, walls, windows, bakeries, meat and poultry plants and laboratory glassware.

Equipment or surfaces subject to direct contact with food must be thoroughly rinsed with potable water after treatment with this product.

#### *Manual or Hand Brushing*

Use at 3–6 mL/L (0.4–0.75 oz. / U.S. gal.) in water at 43–46°C (110–115°F). Soak or brush as required to clean equipment. Sanitize after cleaning and before using any of the equipment.

#### *Spray Cleaning*

Apply at 2–4 mL/L (0.25–0.5 oz. / U.S. Gal.) at 54–60°C (130–140°F) with a spray gun. Rinse with potable water before solution dries. Sanitize before start up of the operation.

#### *Foam Additive*

This product is an excellent additive for alkaline, acidic or neutral solutions used for foam cleaning. Shureclean Plus detergent is used at 3–15 mL/L (0.4–2 oz. / U.S. gal.) for this purpose. Adjustments in this concentration can be made as required for specific foaming requirements.

#### *Glassware*

Use at 3–6 mL/L (0.4–0.75 oz. / U.S. gal.) in warm water. Soak and brush followed by a rinse. Stack on drain to dry but do not nest.

### Technical Data

Certification	Acceptable for use in food processing facilities
Color/Form	Clear, blue-green liquid
Scent	Surfactant
Specific Gravity	1.03
pH (1%)	5.7
pH (neat)	5.8
% P	0.0

The above data is typical of normal production and should not be taken as a specification.

### Safe handling and storage information

Store in original closed containers, away from extreme temperatures. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

### Product compatibility

Shureclean Plus detergent when applied at the recommended concentration and temperature is safe for use on materials commonly found in the processed food industry. Always rinse surfaces thoroughly after use (within one hour). In the event of uncertainty it is advisable to evaluate individual materials before any prolonged use.

### Test Kit

No test kit needed.

### Precautionary Statement

Refer to current Safety Data Sheet.
