Three Compartment Sink Systems

Wall Chart

The chart illustrates the proper steps for cleaning and sanitizing using a three compartment sink. English/Spanish

Manual Pump or Automatic Dilution Control

NEW Premium Hand Dish Liquid

- Specially formulated to provide high sudsing action to penetrate the toughest grease and food deposits fast. Your dishes, pots, pans, and glassware are left film-free thanks to its excellent free-rinsing properties.
- Premium Hand Dish Liquid is formulated with a unique blend of synthetic detergents to deliver phosphate-free cleaning action. Its end-use pH combined with a special skin conditioner makes it gentle on hands and leaves a pleasant lemon fragrance.
- Concentrated, one ounce to one gallon of water (1:128)

H-129 Sanitizer

- A concentrated sanitizer/deodorizer formulated especially for food contact surfaces. It is an ideal product for sanitizing food utensils, counter tops, drinking glasses, dishes, and silverware, as well as refrigerated storage and display equipment.
- Concentrated, one ounce to 4 gallons of water.
- EPA Registered. NSF Category D2

The SinkMaster allows you to conveniently fill large sinks with properly diluted solutions of detergent and/or sanitizer regardless of the size of the sink or how much is dispensed. Ball valve operation allows use without holding or locking a button, labor productivity increases since employees can be doing other activities while large sinks are filling.

Heavy Duty Kitchen Cleaners

Super Grease Buster®

- A fast-acting cleaner formulated to remove fats, oils, and cooking grease from all washable surfaces in kitchens and food processing areas.
- Ideal for cleaning ceramic tile, concrete, terrazzo, tables, equipment, and walls. (Not for use on glass.)
- NSF Category A1, Dilution Range: 1:2 to 1:128

MRD2®

- High-foaming degreaser/cleaner formulated to remove grease, fats, oil, food residues, blood, tallow, and other process wastes from both vertical and horizontal surfaces.
- Perfect for supermarkets, restaurants, food processing plants, and fast food service areas.
- Easy to apply through a foam gun. Can also be applied with a mop, brush, or sponge.
- NSF Category A1, Dilution: 1:20

MRD2 is formulated to be used with foaming applicators like the Hillyard foam gun.

Maintain Drains and Grease Traps with Liquid Trap Shooter® and Liquid Enzyme II Drain Maintainer

- The latest advance in bacterial-based products. Use nature's own cleaning agents to rid grease traps and plumbing of grease and waste accumulation.
- Liquid Trap Shooter works in tandem with the Trap Shooter Dispenser. The dispenser saves time and labor by automating drain maintenance. It is easy to program and routinely dispenses the correct amount of Liquid Trap Shooter.
- Liquid Enzyme II Drain Maintainer comes conveniently packed in portion-controlled, 4 ounce pouches. Simply tear the corner and pour down the drain.

The AutoDose pump runs on eight D-size batteries (HDR1170) or on AC power (HDR1190).

Oven and Grill Cleaner

- Formulated to quickly penetrate and liquefy baked on food, grease, and carbon deposits. A high-foaming cleaner that clings and dissolves the type of heavy buildup experienced with commercial oven and grills.
- Recommended for cleaning fat fryers, ovens, stainless exhaust hoods, charcoal broilers, grills and griddles, rotisseries, drip pans, and kitchen cutlery items.
