

EP80

Finish & Sealers

EP80 Finish & Sealers is a versatile multi-surface, multi-maintenance floor finish/sealer that simplifies floor care programs.

Features & Benefits

- Versatile floor sealer/finish works with any maintenance method and equipment on all floor types
- Leaves finished floors with exceptional clarity, high gloss and excellent durability
- Easy to apply and remove from all floor types

Applications

- Responds beautifully to conventional, high-speed or UHS equipment and maintenance procedures
- May require a sealer on highly polished stone, glazed clay tile, and some rubber floors
- Not intended for use on cork, wood, or bamboo flooring unless specified by the manufacture

EP80

Finish & Sealers

USE DIRECTIONS:

NOTE: Ensure adequate ventilation. Floor surface must be clean, dry and free of residue prior to applying EP80. When stripping is required, choose a Green Seal® certified floor stripper.

APPLYING AS A SEALER OR SEALER/FINISH:

- 1) On a stripped floor, apply 3-5 coats of EP80 with a clean synthetic finish mop or a microfiber mop or applicator system.
- 2) Allow each coat to dry completely, normally 30 minutes before recoating.
- 3) Apply additional coats depending on gloss expectations and traffic conditions.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
