## M140BUC POWER INVERTER

Convert DC power to AC power for laptops, mobile devices, and electronics

The CyberPower M140BUC 140 Watt Power Inverter converts power from your vehicle's 12V DC power outlet into household AC power. The M140BUC can simultaneously power one device through its standard AC outlet, and charge up to two devices with its one, 2.4 amp USB-A port, and one 15 watt USB-C port. The M140BUC features a pivoting DC plug to accommodate tight spacing in some cars, a 15 amp fuse for overcurrent protection, and automatic power shutdown that will prevent your automotive battery from excessive power drain. The CyberPower M140BUC's AC output is rated at 120 watts continuous power, and up to 140 watts of peak power for operation of small electronics that draw a low amount of power.

The CyberPower M140BUC is backed by a two-year limited warranty.

### TYPICAL APPLICATIONS

- Mobile Devices
- Laptop Computers
- Consumer Electronics

### FEATURES

- DC input: 11 - 15 VDC
- AC output: 140 VAC (140 watts peaks, 120 watts continuous)
- AC outlets: 1
