

Operations, Word Problems, and Reasoning Assessment Answer Key

1. B
2. D
3. D
4. C
5. B
6. A
7. B
8. Explanations and examples will vary. Students should associate *times as many* with multiplication and *more than* with addition.
9. They need 7 cars. Model should depict 6 groups of 6 plus a group of 3. Explanations will vary. A seventh car is needed because $39 \div 6 = 6 \text{ R}3$.
10. 6 muffins; Model should depict 5 groups of 6 plus a group of 2. Explanations will vary. Two muffins are left over because $32 \div 5 = 6 \text{ R}2$.
