

This diagram illustrates a fracture of the vertebral body, which is the anterior portion of a vertebra. The fracture line is shown as a horizontal line across the middle of the vertebral body. The pedicle, which connects the vertebral body to the rest of the vertebra, is also labeled.

The fracture line is located in the middle of the vertebral body, and the pedicle is the vertical line connecting the vertebral body to the rest of the vertebra.

## FACTETUM

This diagram illustrates a fracture of the facet joint, which is the joint between the two vertebral bodies. The fracture line is shown as a horizontal line passing through the space between the two vertebral bodies. The pedicle, which connects the upper vertebral body to the rest of the vertebra, is also labeled.

The fracture line is located in the space between the two vertebral bodies, and the pedicle is the vertical line connecting the upper vertebral body to the rest of the vertebra.
