Before you begin, read all instructions carefully.

Note: Craft with caution! Ask for adult permission and assistance before you begin. Please read all warnings and cautions before use. For external use only. Keep all materials away from nose, eyes and mouth. Make sure hands and workspace are clean and dry before you begin.

- Our Fizzy Formula is made from household ingredients including Citric Acid (found in lemons), Corn Starch and Epsom Salt.

Mix & measure carefully! When too much water is added, the mixture will quickly bubble. If placed in a sealed container, it can build pressure and burst. Only use the butterfly molds provided in this kit.

SENSITIVE SKIN WARNING:

If you experience any redness or skin irritation, discontinue use.

**DO NOT APPLY AROUND EYES.
DO NOT APPLY ON LIP AREA.**

WARNING: Read cautions on individual containers carefully. Not to be used by children except under adult supervision.

FIRST AID INFORMATION:

SHIMMER:

USE ONLY AS INSTRUCTED

FIRST AID TREATMENT

Shimmer contains Polyethylene terephthalate, Aluminum, Epoxy resin, Chromium
If swallowed, rinse mouth with water. Consult a physician.
If inhaled, move person into fresh air. Consult a physician.
In case of eye or contact, flush eyes with water. In adverse symptoms persist, seek medical advice.

SCENT:

USE ONLY AS INSTRUCTED
DO NOT SWALLOW OR INHALE
DO NOT GET IN EYES.
KEEP OUT OF REACH OF SMALL CHILDREN.

FIRST AID TREATMENT

Scent contains Dipropylene Glycol, Linalyl Acetate, Coumarin, Ethyl 2-methylbutyrate, Isoamyl Acetate.
May Contain: Lavandula Angustifolia (Lavender) oil, tangerine oil
If swallowed, rinse mouth with water. Consult a physician.
If inhaled, move person into fresh air. Consult a physician.
In case of eye or contact, flush eyes with water. In adverse symptoms persist, seek medical advice.

Make your bath fizzes

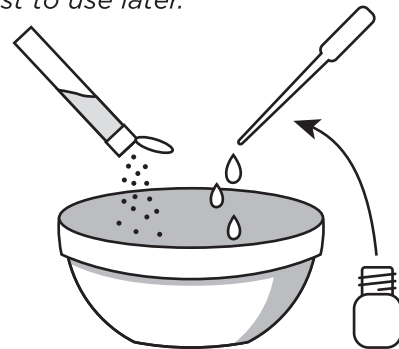

- Set aside your gift tags, twist ties, and pink gift wrap for later. You will need a mixing bowl and a small amount of water.

- Making bath fizzes is like baking a cake. You have to follow the instructions & measure carefully to have a successful outcome.

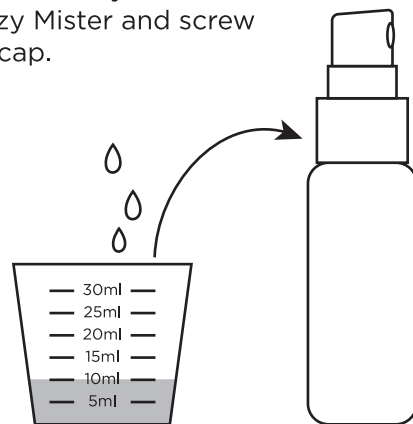

1 Empty 1 Fizzy Formula and 1 Baking Soda into mixing bowl. Mix well.

2 Have an adult remove the seal on the fragrance bottle. Add 10 drops of fragrance using the dropper. Sprinkle in half the tube of shimmer. Mix. *Save the rest to use later.*

3 Fill measuring cup with 10mL of cool water, then pour it into your Bath Fizzy Mister and screw on cap.

4 Mist the powder with water while stirring. Continue to spray and stir until the Bath Fizzy Mister is **completely empty**. If water remains in mister, slowly drip remaining water into mixture and stir quickly. Continue mixing for 1 min. using hands. *Mixture is ready when it clumps together a little bit. If it crumbles, add 2-3 more mists of water and squish again. Be careful not to add too much water.*

PRO TIP: Rotate the head on the Bath Fizzy Mister to get all the water out.

5 Separate your two trays. Fill in bottom half of one mold with mixture and press it down. Put one butterfly charm into the center of each fizzy.

6 Fill the mold to the top and pack tightly. Continue filling and pressing until butterflies are completely full and packed tightly. Let fizzes sit in a dry place for 8 hours or overnight. Dry times may vary.

FUN TIP: If you want two-tone bath fizzes, make both batches and layer colors in the mold.

Repeat steps 1-6 to make your 2nd set of butterfly bath fizzes. You can make them now or save your materials for another time.

7 Release from mold

After 8 hours or overnight, when fizzes are **completely dry**, gently turn mold over onto a dry surface. Lift mold slightly and use your thumbs to lightly press on the plastic to push the fizzes out.

8 Surprise your friends

Wrap your fizzes using the gift wrap, twist ties, and gift tags provided. **Don't forget to sign the gift tags and let your friends know there is a surprise inside!**

What makes a bath fizzy fizz?

Inside the bath fizzy, the citric acid and the baking soda hang out by themselves. The fun begins when they meet their new friend, water. The solids dissolve and combine together releasing carbon dioxide - that's when the bubble party begins!

To use: Fill up the tub and drop in your butterfly surprise bath fizzy. Soak in bath and let your worries flutter away! When your bath is finished, retrieve your charm, then drain and rinse the tub. *Temporary discoloration of the tub surface may occur. Adults should clean tub as needed following manufactures suggestions.*
