

G-8^{TM/MC}

Granular Floor Treatment Compound

Description

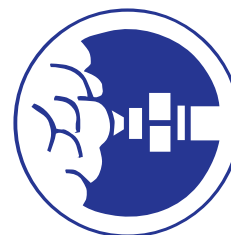

G-8 compound is a granular cationic surfactant/urea floor deodorizer. This product is intended for use in the meat, poultry, dairy and food processing establishments. It is a low dust product and is an effective odor control agent in moist environments.

Easy-to-Use

- Simple application - broadcast at 20 pounds per 7500 square feet
- Granules crush easily to release odor control ingredients
- Easy to rinse into floor drains
- Light blue color for easy identification

Phosphate-free

- Does not contribute phosphorus to effluent
- Acceptable for use in areas that restrict phosphates

Diverclean

G-8^{TM/MC}

Granular Floor Treatment Compound

Use Instructions

For use in milk plants, breweries, meat processing plants and food and beverage processing plants. Broadcast G-8 compound at 4.5–13.6 kg (10–30 lbs.) per 697 square meters (7,500 square feet).

Do not use on food contact surfaces.
