

Assembly Guide

Bush
FURNITURE

If you're having any difficulty during assembly of this product, don't hesitate to call us at
1-800-950-4782.

Our customer service experts are trained to provide step-by-step instruction and can easily replace any missing or damaged parts.

**Representatives are available Monday-Friday
from 8:30 a.m. to 7:30 p.m. (ET)**

48W Wall Mounted Coat Rack w Doors

Lot Code #

Instruction Sheet Number A215876B

Keep manual for future reference.

For best results, keep these tips in mind:

- ① We know you want to finish this assembly as quickly as possible, but trust us: you'll have a better experience if you take it one step at a time.
- ② Give yourself some room to work near where you want the fully assembled product.
- ③ If your floor isn't carpeted, assemble this product on the empty carton to avoid scratching.
- ④ Do you have a friend who owes you a favor? Some steps may go a little easier with a second set of hands.

DOs

- ✓ Use a #2 Phillips head screwdriver (or other handheld tools as indicated)
- ✓ Wear safety glasses at all times during assembly
- ✓ Carefully follow the instructions in this guide and complete all steps in order
- ✓ Give us a call if you're having trouble with a particularly tricky step

DON'Ts

- ✗ We know power tools are quick and easy, but you shouldn't use them when assembling this product (unless otherwise specified)
- ✗ Never move your furniture with items inside or resting on the surface
- ✗ Do not attempt to use this product before all steps have been completed

Watch assembly videos right on your phone or computer!

Some steps include QR codes that link to helpful videos. Watch out for the icon below! Simply open up your smartphone camera to scan the code.

(Users of older smartphones may need to install a QR Reader.)

IMPORTANT SAFETY INFORMATION

PLEASE READ WARNINGS

Improper use can cause safety hazards, or damage to your furniture and household items.

Warning	Do	Don't	Why it's important
DEATH or SERIOUS INJURY can occur	- Hutch MUST be securely attached to wall structure. ONLY attach directly to wood- or metal studs or masonry wall structure.	NEVER attach hutch directly to drywall/sheetrock/gypsum panel. NEVER use hollow wall anchors. - Check that screws are tight and fully screwed into wall. - Screws must not be loose or turn freely when the hutch is fully installed.	Failure to follow these steps may result in product falling of the wall and product collapse resulting in crushing injury.

Advertencia	Hacer	No	Por qué es importante
Puede ocurrir la MUERTE o LESIONES GRAVES	- La conejera DEBE estar firmemente sujeta a la estructura de la pared. ÚNICAMENTE sujete directamente a postes de madera o metal o estructura de pared de mampostería.	NUNCA conecte la conejera directamente al panel de yeso / placa de yeso / panel de yeso. NUNCA use anclajes de pared huecos. - Verifique que los tornillos estén apretados y completamente atornillados a la pared. - Los tornillos no deben aflojarse ni girar libremente cuando la cabina está completamente instalada.	No seguir estos pasos puede resultar en la caída del producto de la pared y el colapso del producto resultando en una lesión por aplastamiento.

Attention	À faire	À ne pas faire	Pourquoi c'est important
LA MORT ou DES BLESSURES GRAVES	- La huche DOIT être fixée sécuritairement à la structure murale. - Fixer DIRECTEMENT aux montants de bois ou de métal ou à la structure murale en maçonnerie.	- Ne JAMAIS fixer la huche directement sur une cloison sèche, un panneau de gypse ou de plâtre. - Ne JAMAIS utiliser d'ancrages pour cloison sèche. - Vérifier que les vis sont bien serrées et entièrement vissées dans le mur. - Les vis ne doivent pas être mobiles ou pivoter quand la huche est complètement installée.	Le non-respect de ces étapes peut entraîner la chute et l'effondrement du produit résultant en blessures par écrasement.

Secure unit to wall. Must be attached to 2 wall studs.

Cabinet is predrilled to attach to 2 wall studs 32" (813mm) apart. If this attachment method is not possible, please consult a professional installer.

Procedure:

1. Place unit in desired location.
2. Locate 2 wall studs 32" (813mm) apart nearest the center of cabinet.
3. Mark level line on wall where top shelf will be located.
4. Measure and mark 7-3/4" (198mm) down from top edge mark.
5. With an assistant align part L bottom edge with mark in step 4. Align holes with center of previously marked wall studs (step 2)
6. Insert H193671 screw into (4) mounting holes and push firmly or tap lightly with hammer to mark for drilling.
7. Set part L aside.

El armario está pretaladrado para fijarse a 2 montantes de pared separados 32" (813mm).

Si este método de fijación no es posible, consulte a un instalador profesional.

Procedimiento:

1. Coloque la unidad en la ubicación deseada.
2. Ubique 2 montantes de pared a 32" (813mm) de distancia más cercanos al centro del gabinete.
3. Marque la línea de nivel en la pared donde se ubicará el estante superior.
4. Mida y marque 7-3/4" (198mm) hacia abajo desde la marca del borde superior.
5. Con un ayudante, alinee la parte L del borde inferior con la marca del paso 4. Alinee los agujeros con el centro de montantes de la pared previamente marcados (paso 2)
6. Inserte el tornillo H193671 en los (4) orificios de montaje y presione firmemente o golpee ligeramente con un martillo para marcar para taladrar.
7. Ponga la parte L a un lado.

Fixation de l'armoire au mur. Elle doit être fixée à 2 montants muraux.

L'armoire est pré-percée pour être fixée à 2 montants muraux espacés de 32" (813 mm). Si cette méthode de fixation n'est pas possible, veuillez consulter un installateur professionnel.

Procédure à suivre :

1. Placez l'armoire à l'endroit souhaité.
2. Repérez 2 montants muraux à 32" (813 mm) de distance, le plus près possible du centre de l'armoire.
3. Tracez une ligne de niveau sur le mur à l'emplacement de l'étagère supérieure.
4. Mesurez et marquez 7-3/4" (198 mm) à partir de la marque du bord supérieur.
5. Avec l'aide d'un assistant, alignez la partie L du bord inférieur avec la marque de l'étape 4. Alignez les trous avec le centre des montants muraux marqués précédemment (étape 2)
6. Insérez la vis H193671 dans les (4) trous de montage et poussez fermement ou frappez légèrement avec un marteau pour marquer les trous pour le perçage.
7. Mettre la partie L de côté.
