1 Persuasive: Community Service

Persuasive: Community Service

Some people think that all 18 year-olds should perform one year of community service before they pursue college or a paying job. For example, the Peace Corps, emergency medical services, Big Brothers Big Sisters, and other organizations offer programs that require college or a paying job. What is your position on the issue?

The more experience a person has to go into a specific field the better off they will be in their field. Therefore in performing national or community service I think it's a good idea for 18 year olds to complete this service before they pursue college or a paying job. In the issue of national or community service the 18 year old will be better able to perform their job or studies. Furthermore the service will be the 18 year old more rounded as an individual therefore allowing a better chance of success. To begin, national or community service teaches 18 year olds things that their school might not have over because in school they go over certain things
