

1. **Introduction**
This document provides a comprehensive overview of the project's objectives, scope, and the methodology employed. It details the research questions and the data sources used to address them.

2. **Methodology**
The research methodology is divided into two main phases: data collection and data analysis. The data collection phase involves gathering information from various sources, while the analysis phase uses statistical and qualitative methods to interpret the findings.

Phase	Sub-Phase	Key Activities
Data Collection	1.1	Identify sources and collect data
	1.2	Verify data accuracy and reliability
	1.3	Organize and store data
Data Analysis	2.1	Apply statistical methods
	2.2	Interpret results and draw conclusions
	2.3	Present findings and discuss implications
