QUICK START GUIDE

PRONTO

ELECTRONIC CONCENTRATE VAPORIZER

GET STARTED

Press the button 5x to turn on & off.

The Pronto will automatically shut off after 3 minutes.

USING YOUR PRONTO

1. Screw the vapor coil tip onto the Pronto to assemble and press the button 5x to turn on.

2. Press the button 3x to select your preferred temperature level.

2.6V

3.4V

3.8V

3. Press and hold the button to heat the coil.

Pro Tip: Wait a few seconds until a small puff of smoke rises off the coil. This ensures the coil is hot enough to vaporize the wax without wasting any product.

4. While pressing the button, insert the coil tip directly into the jar of wax, and take your hit. There is no need to handle any sticky substances!

● Green Light 100-50% battery power
● Yellow Light 21-49% battery power
● Red Light 0-20% battery power

HOW TO CLEAN

1. Unscrew the coil tip from the Pronto base and soak in a bath of isopropyl alcohol for at least 20 minutes. Use a cotton swab or pipe cleaner to clean off any stuck-on residue.

2. Swab the inside of the visual chamber and mouthpiece with a cotton swab dipped in alcohol.

CHARGING YOUR DEVICE

Plug the USB-C charging cord into the port on the side of the device. Plug the USB end into a wall adapter and then charge using a wall outlet.

Pro Tip: We recommend only using the Ooze USB-C charging cable for rapid charging and best results. NEVER charge your device in your car. Always charge in a wall outlet.
