Materials

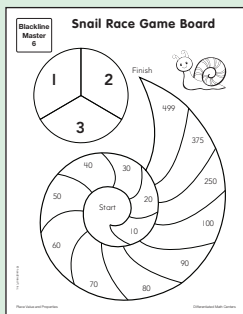

Classifying Counters

Number Cubes

Base Ten Blocks

Blackline
Master #6

What to Do

1. All players put their  at Start.
2. On your turn, spin a number. Move your  that many spaces.
3. Toss the  . Make a two-digit number. Put the digits in any order. I landed on 30.
I tossed a 5 and a 4.
4. Add your two-digit number to the number on the game board. Model 30 with  and record.
$$\begin{array}{r} 30 \\ + 54 \\ \hline 84 \end{array}$$

Show Your Work

5. All other players check your answer. If correct, stay on that space. If not, go back 3 spaces.
6. On your next turn, subtract the numbers. Take the lesser number away from the greater number.
7. Repeat Steps 2–6 until a player reaches Finish.

How can you model the sum?

Skill Practice

Add or subtract. Use base ten blocks to help.

1. $40 + 47 =$ _____
