

## + CPR PRODUCTS

Dynarex CPR Shields and Masks are designed to provide a physical barrier between the responder and patient, reducing the risk of cross-contamination during CPR. The CPR Shield features a barrier filter and one-way valve that prevents patient blowback to the caregiver throughout administration.

<b>36020</b>	Face Shield in poly bag	100 / cs
<b>36021</b>	Face Shield in soft case with key ring	100 / cs
<b>36022</b>	Rescue Mask in hard case with gloves	25 / cs

- Serves as a protective barrier to prevent direct contact during CPR
- Features a one-way-valve to keep blowback from reaching the rescuer
- Designed from moldable plastic to effectively seal around the nose and mouth
- Individually poly bagged and constructed from disposable materials for optimal hygiene
- Not made with natural rubber latex or DEHP
- 36021: Features convenient key-ring pouch
- 36022: All-in-one kit includes mask, optional oxygen port, vinyl gloves, and hard case
