

LEWMAR®

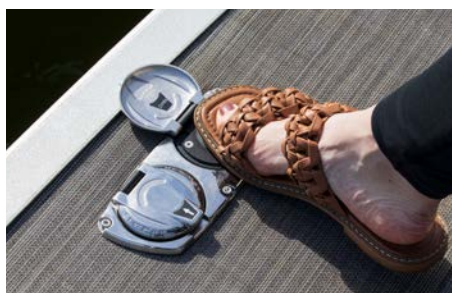

VENTA™ PONTOON ANCHOR WINCH

Safe, easy pontoon anchoring with a push of a button. The Lewmar Venta™ pontoon anchor winch is mounted to the underside of the vessel and controlled by the convenient foot-operated deck switch.

SAFE, EASY PONTOON ANCHORING WITH A PUSH OF A BUTTON.

Easy to use

Quick deployment and retrieval made simple and hands-free with the included foot switch. Recommended for bow area installation

Safety first

Keep slippery mud and tripping hazards off your deck with this under-mounted electric pontoon winch

Expertly engineered

Mounted underneath pontoon deck for out-of-sight anchoring

Additional Features

- Underdeck anchor deployment and retrieval designed for pontoon and tritoon boats
- Accommodates plow-style anchors for better holding power in sand or mud
- IP66-rated motor and electronics are sealed off from the elements
- Slackline sensor stops payout on bottom contact, preventing tangles
- Auto pulse feature sets anchor confidently into the bow roller upon retrieval
- Optional aluminum mounting plate simplifies installation
