

The diagram illustrates a fracture of the vertebral body. The fracture line is clearly visible, showing the displacement of the bone fragments. The labels 'A' and 'B' likely refer to specific anatomical features or measurement points related to the fracture. The vertical lines to the right may indicate the extent or severity of the injury.

## FACETJUE

The diagram illustrates a fracture of the facet joint. The top view shows the fracture line through the articular surface, while the bottom view shows the fracture line extending through the joint space. The labels 'A' and 'B' identify specific anatomical features.
