

See safety datasheet (if applicable) and product label for safety information, handling and proper use.

Directions for Use

Apply with foam gun. Dilute one part CITRIC SHOWER FOAM to 20 parts cold water (greater chemical action can be obtained with warm water). Foam onto surface; repeat immediately; allow to react with film and mineral deposits 2-3 minutes; rinse well with water. For extremely heavy soil buildup, foam surface and allow foam to react, then scrub with mild abrasive pad or brush and rinse. Always rinse thoroughly after using. CITRIC SHOWER FOAM can also be applied with soft bristle brush at a dilution of 1:20 (6 oz./gal.). For heavier soil buildup, dilute at 1:12 (10 oz./gal.). For extremely heavy soil, use undiluted. Allow to penetrate and loosen soil; rinse thoroughly. NOTICE: Do not use with ammonia or bleaches. Do not use on marble, terrazzo, resilient flooring, aluminum, or galvanized metal.

Shower Foam quickly dissolves away the weekly build-up of hard water deposits and soap film from shower walls and floors without scrubbing. Just spray it on, allow it to work, and rinse.

Features & Benefits

- Dissolves hard water deposits and soap film without scrubbing.
- Excellent foaming action for hard-to-reach areas.
- Concentrated for economical cost-in-use.

Item Number & Unit of Measure

Item Number	HIL0014606
Unit of Measure	1 gal Bottle

Specifications

Color	Light Blue-green
Appearance	Clear
Fragrance	Evergreen
Formula Type	Liquid
Dilution Ratio	1:20 - 1:12
PH	1.0 - 3.0
Non-Volatile Matter	6.50 - 7.50%
