Applied to Life.™

Respiratory hoods and headcovers. Versatile, comfortable protection.

3M™ Versaflo™ S-Series Hoods and Headcovers for Powered and Supplied Air Respirators.

Soft headcovers don't have to be a hard decision.

Lightweight, versatile and easy to maintain, 3M™ Versaflo™ S-Series headtops help protect your workers from a variety of contaminants while maintaining comfort.

Easy to see.

Provides an excellent field of view with reduced curvature to decrease reflections and glare.

Easy to replace or reuse.

Premium reusable options may be a cost effective alternative for high disposal rate environments.

Easy to adjust.

Premium suspension allows users to adjust airflow distribution to their liking, giving them control over their comfort.

Easy to use.

Independent crown and circumference adjustment for a comfortable custom fit for a wide range of head sizes.

Designed for comfort. Powered by innovation.

We developed the Versaflo PAPR system and S-Series headtops to deliver the respiratory protection you need, with the comfort and ease you've been looking for.

Comfort

Powered air purifying respirators may make hot environments more tolerable, and the premium reusable suspension enhances airflow distribution with low noise for improved user comfort.

Ease

Easy to buy, easy to use, easy to maintain, S-Series headtops are specifically designed to work in concert with your Versaflo respiratory protection system.

Versatility

A variety of designs, fabrics and suspension types gives options for user comfort and cost effectiveness for a range of environments.

Find the perfect fit for your environment.

Whether you want the convenience of fully assembled Integrated Hoods and Headcovers or the cost-savings of Premium Reusable Suspension Hoods, you have a range of options for your comfort and protection.

*Consult 3M Technical Data Bulletin #175 and the product user instructions for additional information on the Assigned Protection Factor (APF) of 1,000.

Choose from options designed to work for you.

S-Series headtops offer a variety of options for shrouds, sealing surfaces, and suspensions, allowing you to choose the respiratory protection that provides the most value, and comfort for your team.

Premium Head Suspension.

Reusable suspension hoods can be very cost-effective in high disposal rate environments. By just replacing hood fabric, the suspension and air ducting can be reused.

Rigid ducting.

Provides a consistent air path.

Adjustable airflow.

Allows wearers to modify the direction of airflow distribution to their comfort.

▶ S-950

Versatile

Designed to be used with 3M™ Premium S-600, S-700, S-800 Series hoods and 3M™ SecureFit™ Hard Hat H-700 series to provide integrated respiratory, head, and eye protection for various applications.

▶ S-960

Low airflow noise.

Low airflow noise for further comfort and worker acceptance.

Comfort

Helps direct air flow to front of hood for user comfort.

To shroud or not to shroud?

The choice between a product with an inner shroud vs. a product without an inner shroud, or the choice between a product with a neck collar vs. a face seal is largely user preference.

▶ S-657

Neck Collar

Commonly used with coveralls or lab coats.

Inner shroud must be fully tucked into your work clothing.

May accommodate additional facial hair.

▶ S-655

Face Seal

Face seals preferred by some users.

No tucking/untucking required during donning and doffing.

Add value. Choose to customize.

Make S-Series your own with versatile accessories that can help you adapt the headtop to your particular environment.

Visor Protection.

Visor peel-offs can help extend the life of your visor and protect from contaminants and scratches. Choose from single-layer peel-offs (S-920, S-922) or a multi-layer peel-off (S-923) that can be used across all S-Series hoods and headcovers.*

Replacement Parts.

Easy to buy, easy to use, easy to maintain. Replacement fabric and comfort pads are available for the reusable suspension hoods.

Comfort Pad	Type	
	S-953	Standard
	S-954	Size Reducing

Breathing Tubes.

Deliver the powered airflow you need for your application through breathing tubes varying from light to heavy duty.

Breathing Tube	Length	Protection
 BT-20S	Short - for use with backpacks	Light Duty
 BT-20L	Long	
 BT-30	Adjustable	Medium Duty
 BT-40	Long	Heavy Duty

Replacement Hoods	Type	
 S-605	S-605	Face Seal
 S-607	S-607	Neck Seal and Inner Shroud
 S-707		
 S-805	S-805	Face Seal
 S-807	S-807	Neck Seal and Inner Shroud

*S-920 for use with S-100 & S-400 Series hoods and headtops; S-922 for use with S-600, S-700 and S-800 Series Hoods.

Easy to use. Easy to buy.

We want every step of the process to be simple for you. So we give you multiple ways to purchase and implement Versaflo S-Series Headtop for your workers.

Just getting started? Choose a full kit.

For some of the most common applications, we've collected the most common components into convenient kits.

Health Care

A wider field of view allows you to see more of your work as your patients see more of your face, while also accommodating stethoscope use.

Easy Clean

Get all the benefits of a PAPR system that is easy to clean and maintain.

Industrial Hard Hat

A versatile Powered Air System featuring a hard hat with a disposable hood. For use industrial environments like painting, decommissioning, chemical mixing.

Looking for a full kit but need a different headtop? Start with an assembly.

An assembly bundles together blowers, batteries, belts and other common components, but allows you to choose the headtop and accessories right for your job.
