CONTENTS

- 90 Stupid Deaths Cards

OBJECT OF THE GAME

Be the first player to correctly guess and collect 6 Cards.

SET UP

- Shuffle the Stupid Deaths Cards and place them face down in the center of all players.

PLAYING THE GAME

1. The last person to have watched a movie is the first Reader, and picks up a card from the top of the deck, making sure no other players see the face up side of the card.
2. The Reader turns to the player on his/her left and reads the card aloud to that player, making sure not to read the "TRUE" or "FALSE" answer at the bottom.

3. Player 1 has a minute to guess whether or not the card is TRUE or FALSE. If Player 1 cannot answer, all other players may have a turn to guess if the card is TRUE or FALSE. If Player 1 answers correctly, that player earns the card and becomes the Reader. If Player 1 answers incorrectly, the card is discarded and Player 1 becomes the Reader.
4. Play continues in this fashion, counter-clockwise, until one player has successfully collected six Stupid Deaths cards.

WINNING THE GAME

The game ends when one player has successfully guessed and collected 6 Stupid Deaths Cards. That player is the winner, and really knows a stupid death when he/she hears one!
