

INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions as you may need them a later date

CAUTION

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

GENERAL

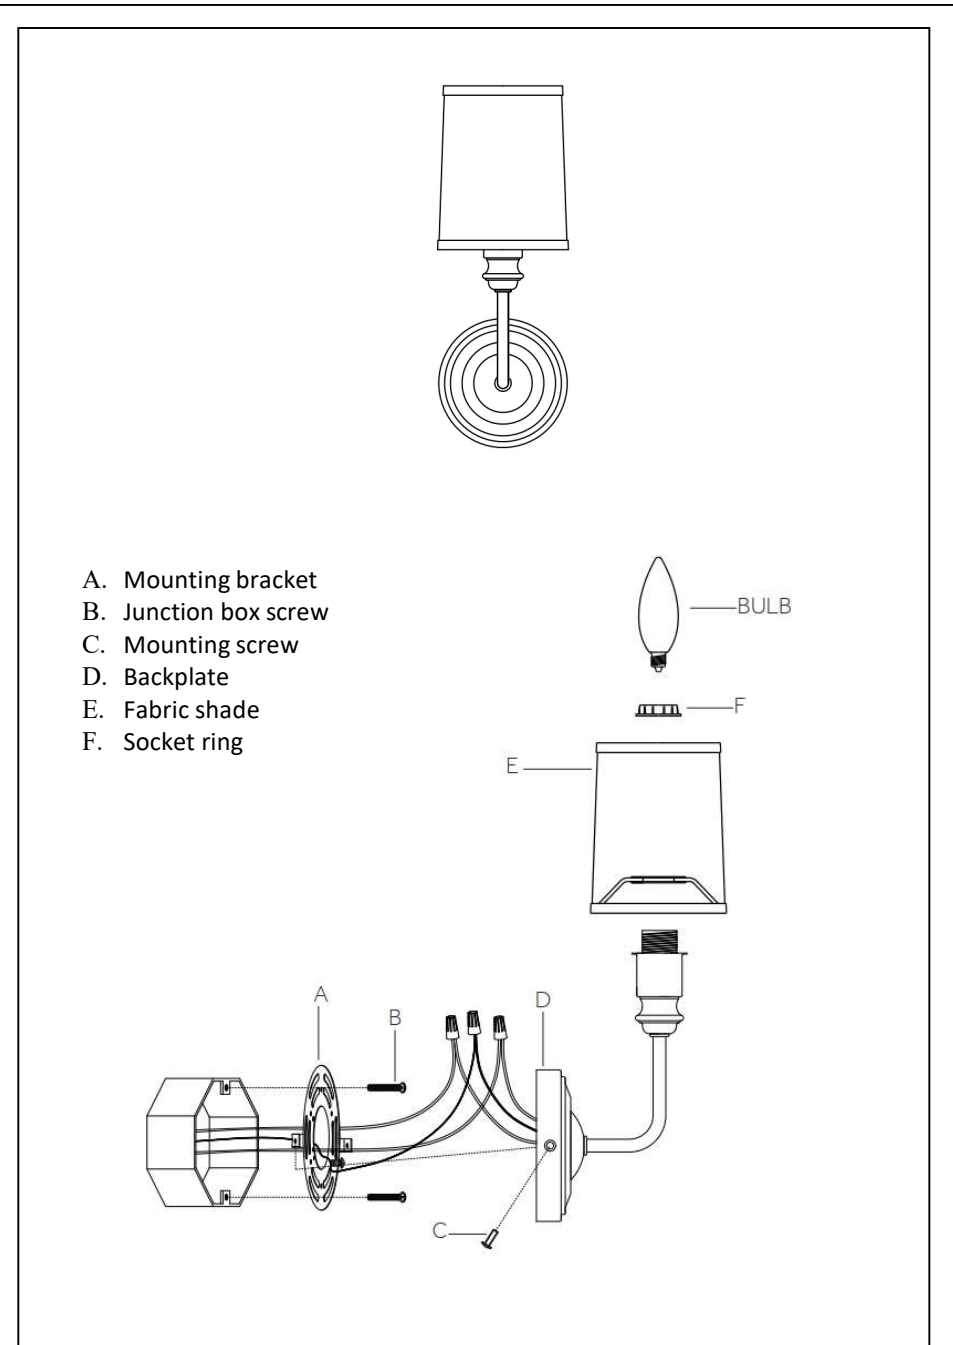

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustration.

ASSEMBLY AND INSTALLATION

1. Attach mounting bracket (A) to junction box with junction box screws (B).
2. Pull out the outlet wire and ground wire from junction box.
Make wire connections with wire nut .
--Ribbed wire (w/o marking) or white wire from fixture to White wire from power source.
--Smooth wire (w marking) or black wire from fixture to Black wire from power source.
--Ground wires from fixture to power source and tie to mounting bracket(A) with a ground screw.
3. Raise fixture to wall. Place backplate(D) of fixture over mounting bracket (A). Align holes in the tabs on the side of mounting bracket (A) with holes in the sides of backplate(D). Thread one fixture mounting screw (C) into each hole in backplate(D). Tighten fixture mounting screws (C) to secure fixture to wall.
4. Put fabric shade (E) on socket through shade spider. Thread socket ring (F) onto socket to secure fabric shade (E) to fixture. DO NOT over tighten socket ring (F).
5. Screw recommended bulb (E12 Candelabra bulb type, not included) into socket. Verify correct bulb wattage marked on socket of fixture. WARNING: DO NOT exceed maximum bulb wattage.
6. Turn on the power.

INSTALLATION IS NOW COMPLETED
